Draw a Halloween House

Answer | Task 1 of 4 | A4

Original prompt

Task 1: Draw the house body, roof, door, and window only.

Answer

A house body with a roof that overhangs the body, a door at the base, and one window above the door.

Reasoning

The house is built first so later decorations have a clear place to attach.

Check

Check that the roof overhangs the body and the door sits at the base.

Draw a Halloween House

Answer | Task 2 of 4 | A4

Original prompt

Task 2: Add a jack-o-lantern beside the door with a carved face.

Answer

A jack-o-lantern resting on the ground line beside the door, with a carved face turned outward.

Reasoning

Placing the jack-o-lantern on the ground line beside the door makes it part of the house scene.

Check

Check that the jack-o-lantern rests on the ground line and faces outward.

Draw a Halloween House

Answer | Task 3 of 4 | A4

Original prompt

Task 3: Add two bats above the roof and a cobweb in one upper corner.

Answer

Two bats flying above the roof edge, pointing toward the house, and a cobweb stretching from the roof corner to the wall.

Reasoning

Bats above the roof and a cobweb connecting roof to wall tie the decorations to the house.

Check

Check that the bats point toward the house and the cobweb connects roof to wall.

Draw a Halloween House

Answer | Task 4 of 4 | A4

Original prompt

Task 4: Redraw the full scene from the worked example in your own arrangement.

Answer

A complete Halloween house with body, roof, door, window, jack-o-lantern beside the door, two bats above the roof, and a cobweb in one upper corner, arranged in your own way.

Reasoning

Redrawing the full scene tests whether you can keep the house as the main subject while placing all decorations yourself.

Check

Check that the house is the largest shape and all decorations belong to it.
