Draw with Complementary Colors

Student | Task 1 of 4 | A4

Original prompt

Task 1: Opposite-hue matching. On a simple color wheel you draw yourself, mark three pairs of opposite hues and write the pair names beside them.

Your colour study and check

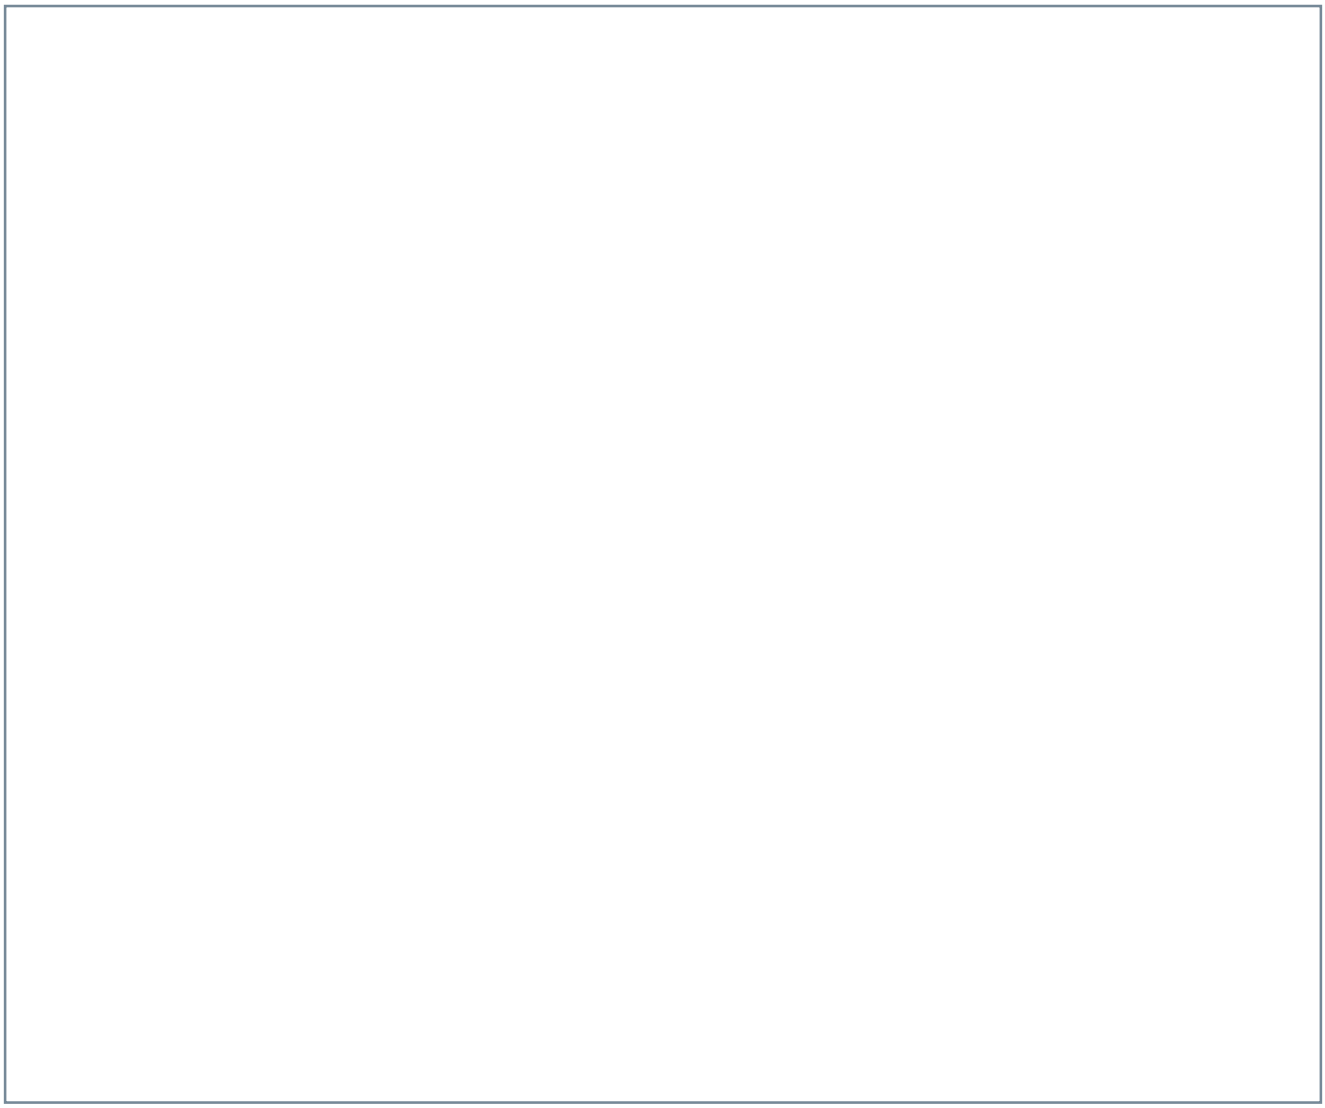
Draw with Complementary Colors

Student | Task 2 of 4 | A4

Original prompt

Task 2: Build a three-patch plate for one pair. Draw two adjacent patches of the two hues and a third patch where they are blended or layered, then label the pair.

Your colour study and check



Draw with Complementary Colors

Student | Task 3 of 4 | A4

Original prompt

Task 3: Reference-guided redrawing. Using your plate from Task 2, redraw a simple object (for example a leaf or a cup) in one hue of the pair, then shade the shadow side with the complement.

Your colour study and check

Draw with Complementary Colors

Student | Task 4 of 4 | A4

Original prompt

Task 4: Visual QA. Compare two of your own drawings that use complementary shading and write two short observations about which one reads more clearly and why.

Your colour study and check
