Draw a Panoramic Perspective

Student | Task 1 of 4 | A4

Task prompt

Task 1: Draw a horizon with two widely spaced vanishing points and a single block whose near vertical edge crosses the horizon. Label VP-L and VP-R.

Build your horizon and block here

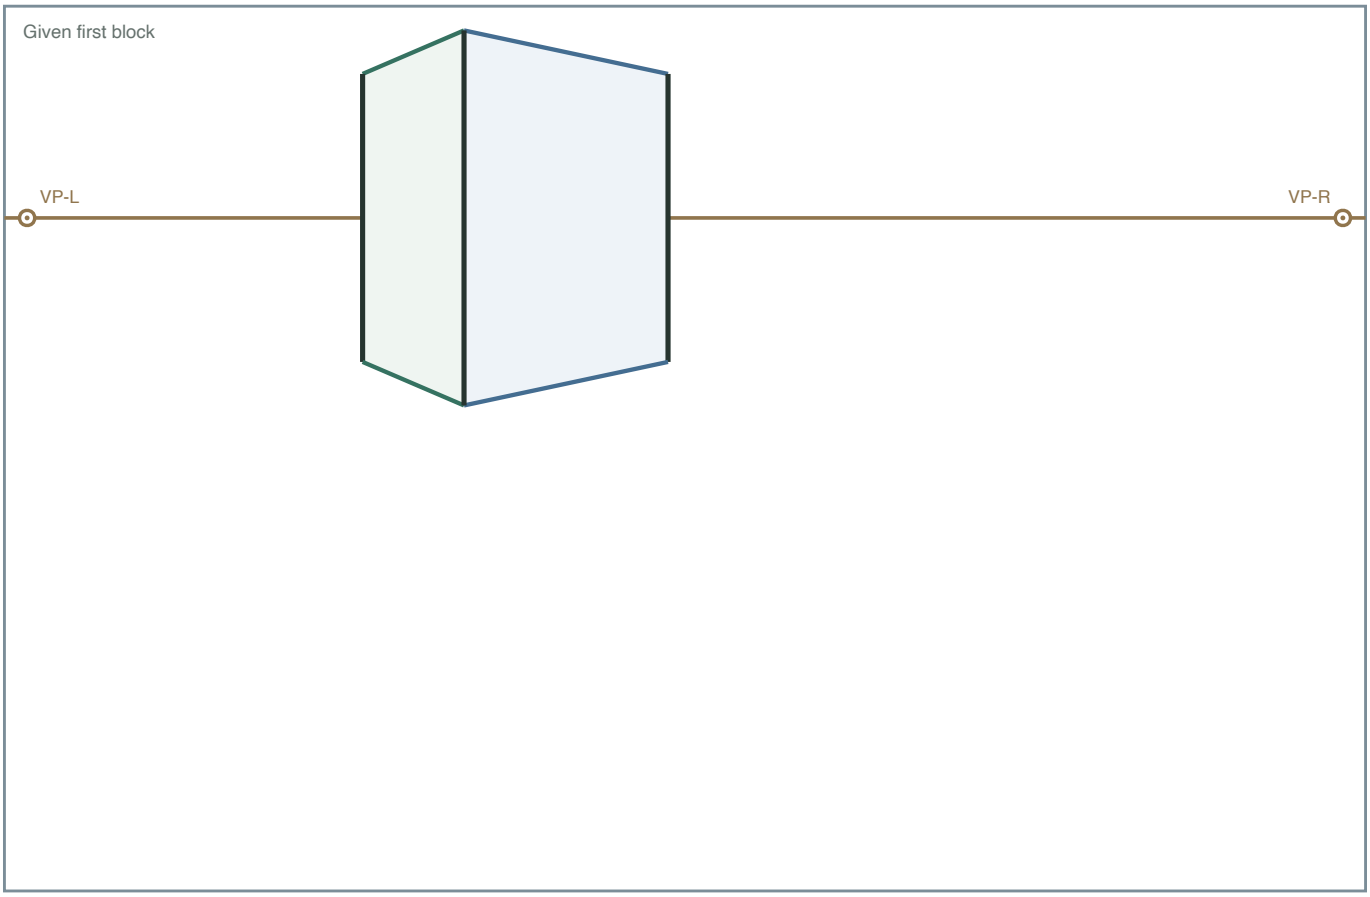
Draw a Panoramic Perspective

Student | Task 2 of 4 | A4

Task prompt

Task 2: On the same horizon and points, add a second block behind the first, receding toward VP-R, so the two blocks form a shallow row.

Given first block



Write your check

Draw a Panoramic Perspective

Student | Task 3 of 4 | A4

Task prompt

Task 3: Draw a wide ground plane with a row of three blocks receding toward VP-L and a second row receding toward VP-R, all on one horizon.

Given horizon and vanishing points

Draw a Panoramic Perspective

Student | Task 4 of 4 | A4

Task prompt

Task 4: Redraw your Task 3 plate with the two vanishing points moved closer together, then compare the two plates and state which reads as panoramic and why.

Task 3 wide-spacing plate (given)

VP-L VP-R

Redraw with closer vanishing points

VP-L VP-R

Record which plate reads broad on the page and why
