Poker Run Sheet

Reference | Blank scorecard | A4

Enter the name and date. Write each checkpoint and one card in the matching row.

Name	Date

Slot	Checkpoint	Card (rank and suit)
1		
2		
3		
4		
5		

Before turning it in, check all five rows against the cards actually dealt.

Poker Run Sheet

Reference | Worked example | A4

Original prompt

A participant named A. Rivera rides a run dated 12 May. The five checkpoints deal, in order: 7 of hearts, K of spades, 3 of clubs, 10 of diamonds, and 9 of hearts. Show the completed scorecard.

Name	Date
A. Rivera	12 May

Slot	Checkpoint	Card (rank and suit)
1	Checkpoint 1	7 of hearts
2	Checkpoint 2	K of spades
3	Checkpoint 3	3 of clubs
4	Checkpoint 4	10 of diamonds
5	Checkpoint 5	9 of hearts

Answer

Header: Name A. Rivera, Date 12 May. Slot 1: Checkpoint 1, card 7 of hearts. Slot 2: Checkpoint 2, card K of spades. Slot 3: Checkpoint 3, card 3 of clubs. Slot 4: Checkpoint 4, card 10 of diamonds. Slot 5: Checkpoint 5, card 9 of hearts.

Reasoning

Each dealt card is written once, in the slot matching its checkpoint number, so the five slots read in checkpoint order and the header identifies the participant and date.

Check

Count the filled card fields: there should be five, one per slot, and each should name a rank and a suit.
