# Phase 10 Dice Score Sheet

Reference | Blank record | A4

## Recording order

Write the phase number, a check for complete or a dash for retry, then the supplied practice number.

| Round | Player | Player | Player |
|---|---|---|---|
| 1 | | | |
| 2 | | | |
| 3 | | | |
| 4 | | | |
| 5 | | | |
| 6 | | | |
| 7 | | | |
| 8 | | | |

## Using the blank sheet

Replace Player with each name. Use one row for each round.

# Phase 10 Dice Score Sheet

Reference | Worked example | A4

## Original prompt

Fill the grid for Ana and Ben over three rounds using the round-by-round record in the worked example.

## Recording order

Write the phase number, a check for complete or a dash for retry, then the supplied practice number.

## Completed record

| Round | Ana | Ben |
|---|---|---|
| Round 1 | P1 ✓ 40 | P1 — 25 |
| Round 2 | P2 — 30 | P1 ✓ 35 |
| Round 3 | P2 ✓ 45 | P2 — 20 |

## Answer

Ana: R1 phase 1 check 40; R2 phase 2 dash 30; R3 phase 2 check 45. Ben: R1 phase 1 dash 25; R2 phase 1 check 35; R3 phase 2 dash 20.

## Reasoning

Ana completed phase 1 in R1, so R2 is phase 2; she did not complete phase 2 in R2, so R3 stays phase 2. Ben did not complete phase 1 in R1, so R2 stays phase 1; he completed it in R2, so R3 is phase 2.

## Check

Ana has two checks and one visible phase increase (1 to 2 between R1 and R2); her final row is a check, so checks exceed visible increases by one. Ben has one check and one visible increase (1 to 2 between R2 and R3); his final row is a dash, so the counts match.
