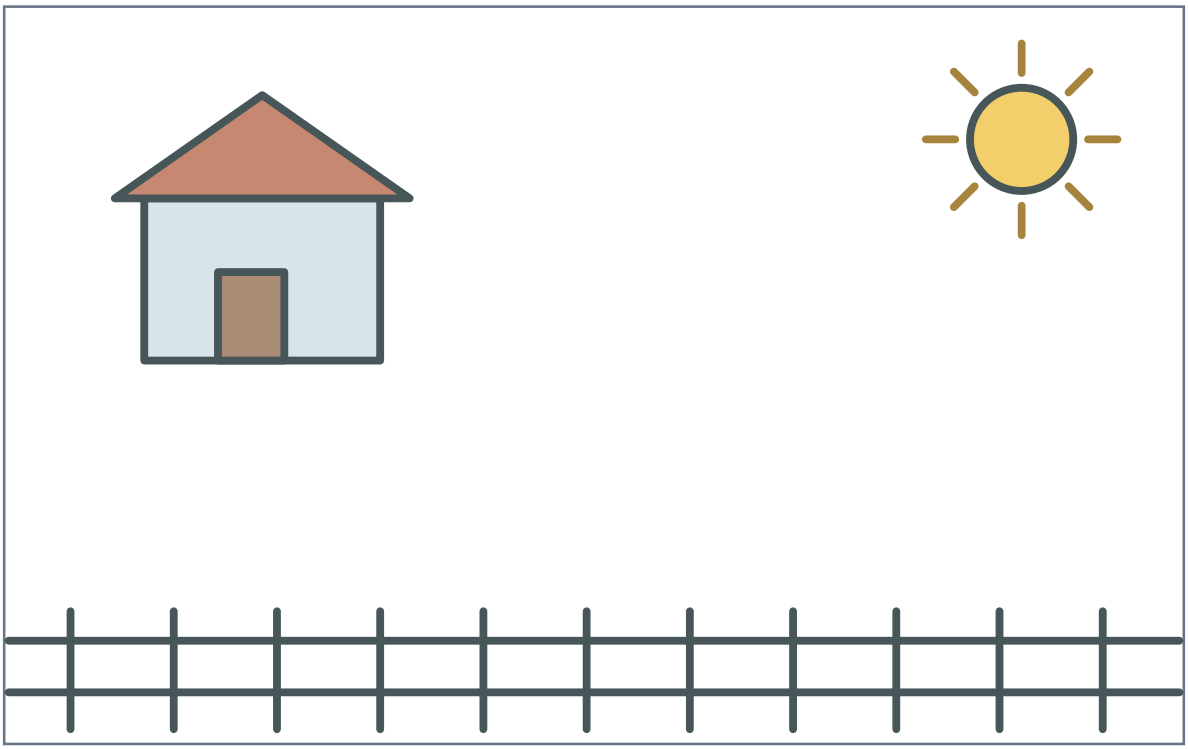
Draw What You Hear Worksheet

Answer | Task 1 of 4 | A4

Original prompt

Task 1 card: 'Draw a house with a pointed roof in the upper left of the page. Draw a fence along the bottom of the page. Put a sun in the upper right corner.'



Answer

A house with a triangular roof in the upper left area; a horizontal fence line with posts along the bottom edge; a sun (circle with rays) in the upper right corner.

Reasoning

Three elements with explicit positions: house upper left, fence bottom, sun upper right. The pointed roof is a named feature and must appear.

Check

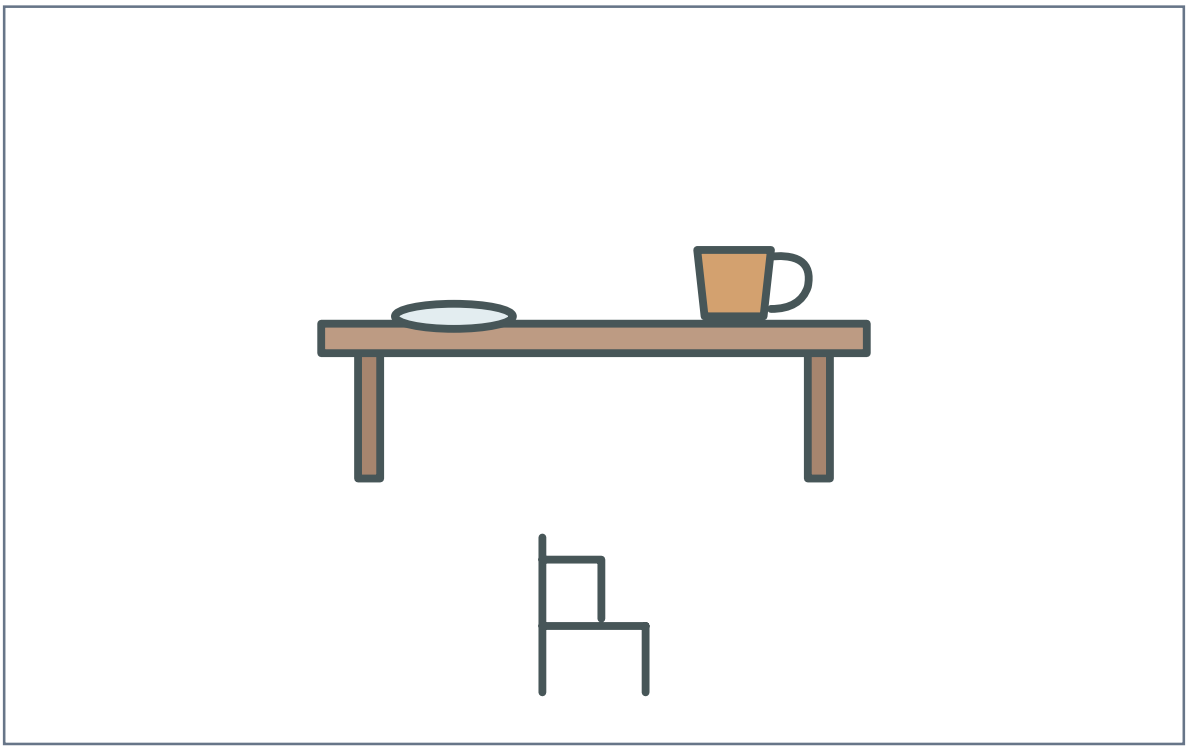
Tick: house upper left with pointed roof, fence along bottom, sun upper right. Any element in the wrong region means revise.

Draw What You Hear Worksheet

Answer I Task 2 of 4 I A4

Original prompt

Task 2 card: 'Draw a table in the center. Put a plate on the left side of the table and a cup on the right side. Draw a chair below the table.'



Answer

A table shape in the center; a plate (circle) on the left side of the tabletop; a cup (small shape with handle) on the right side; a chair drawn below the table.

Reasoning

The card gives a center object and three relative positions: plate left, cup right, chair below. Side and below are the key words to translate.

Check

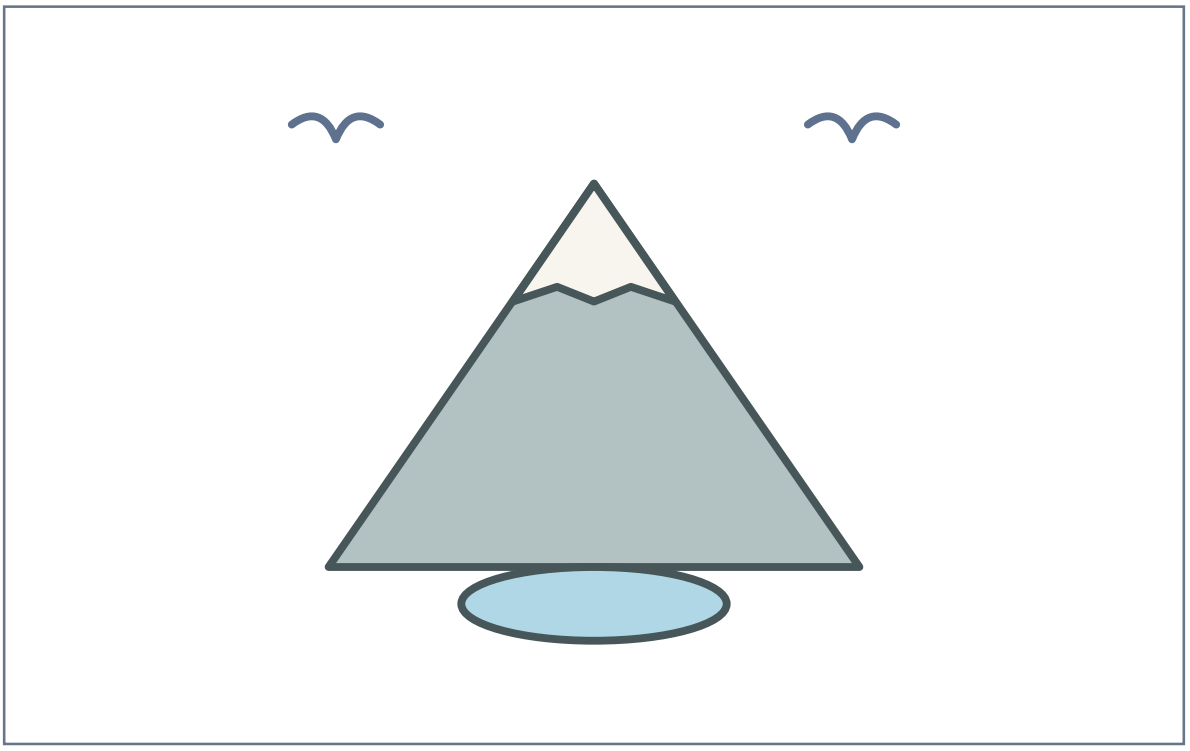
Tick: table centered, plate left, cup right, chair below. If the plate and cup are swapped or the chair is beside the table, revise.

Draw What You Hear Worksheet

Answer I Task 3 of 4 I A4

Original prompt

Task 3 card: 'Draw a tall mountain in the middle. Draw a small lake at the bottom of the mountain. Put two birds above the mountain, one on each side.'



Answer

A tall triangular mountain in the middle; a small lake shape touching the bottom of the mountain; two bird shapes above the mountain, one to the left and one to the right.

Reasoning

The card names a tall mountain (middle), a small lake (bottom of mountain), and exactly two birds (above, one each side). Count and relative position are the checks.

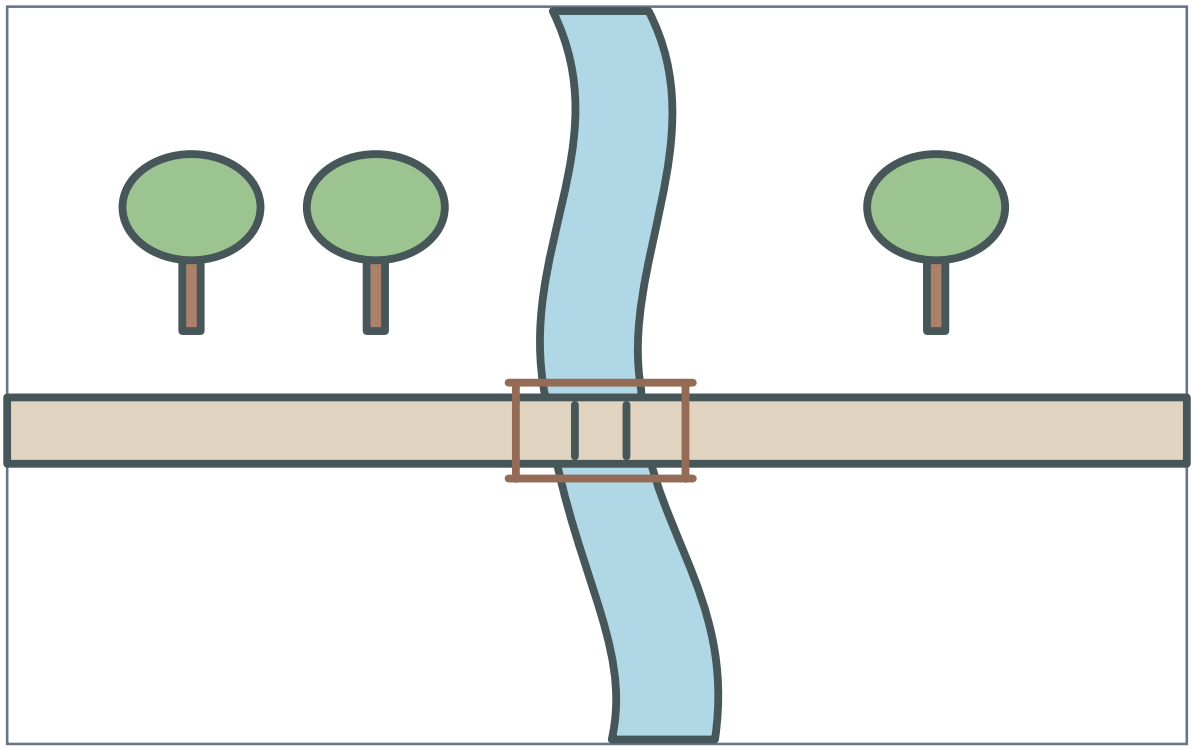
Check

Tick: mountain centered and tall, lake at its bottom, exactly two birds above on opposite sides. Missing a bird or placing both on one side means revise.

Draw What You Hear Worksheet

Original prompt

Task 4 card: 'Draw a road running from the left edge to the right edge of the page. Put three trees along the top side of the road. Draw a bridge where the road crosses a river in the middle.'



Answer

A horizontal road line spanning left to right; three tree shapes spaced along the top side of the road; a river crossing the road in the middle with a bridge shape over it.

Reasoning

The card gives a spanning road, an exact count (three trees) on a named side (top), and a bridge at a named location (middle, where road crosses river).

Check

Tick: road spans both edges, exactly three trees on the top side, bridge at the middle crossing. Wrong tree count or missing bridge means revise.
