Blank Monthly Calendar

Reference / solved example

Complete a Sunday-first calendar for November 2026. Place day 1 under Sunday; fill all dates and leave unused cells empty.

Answer: 30 days; day 1 is Sunday. The completed calendar in the key gives every date.

November 2026

Sun	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30					

Count dates consecutively across each row, then continue at the next Sunday.

Check: The final date is 30; the month contains exactly 30 date entries.
