Box Drawing Exercises

Student | Drill 1 of 4 | A4

Original prompt

Drill 1: On the blank plate, draw a horizon line, mark LVP and RVP, draw a front vertical edge, and project a complete box.

Starter guides. Use the blank drawing area below.

Draw your own construction

Box Drawing Exercises

Student | Drill 2 of 4 | A4

Original prompt

Drill 2: Rotate the box from Drill 1 and move its near vertical farther left on the sheet. Keep the same box dimensions and horizon height. Re-project it using the new two vanishing points for the turned box.

Starter guides. Use the blank drawing area below.

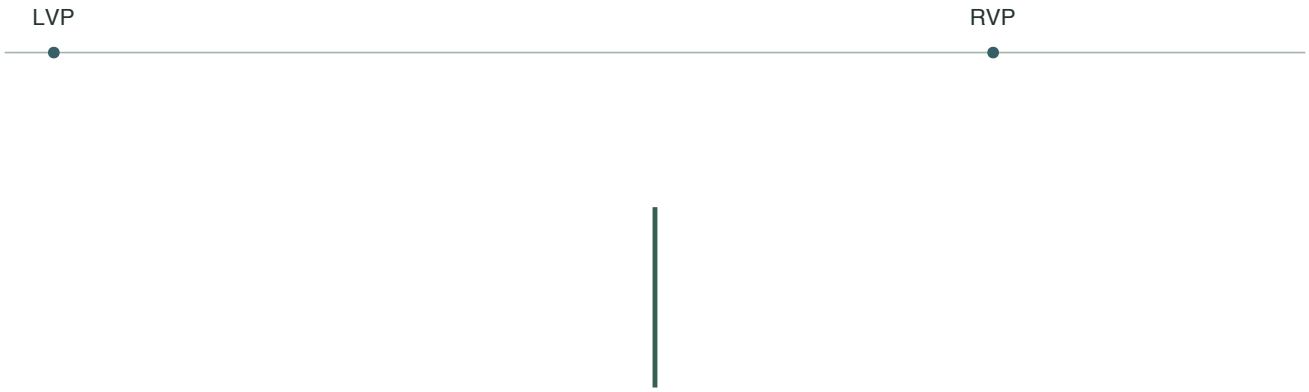
Draw your own construction

Box Drawing Exercises

Student | Drill 3 of 4 | A4

Original prompt

Drill 3: Draw a box whose top face is visible because the viewer is above it, and project it correctly.



Starter guides. Use the blank drawing area below.

Draw your own construction

Box Drawing Exercises

Student | Drill 4 of 4 | A4

Original prompt

Drill 4: Draw two boxes at different depths on the same horizon line and check that both converge correctly.

Starter guides. Use the blank drawing area below.

Draw your own construction
