Fraction Grid Paper

Reference / solved example

Shade 1/4 of the 100-square grid. State how many squares you shaded and write the decimal.

Answer: 25 squares; 1/4 = 25/100 = 0.25.

One whole = 100 equal squares

The whole has 100 equal cells; 1/4 of 100 is 25.

Check: Exact rational value: 1/4.
