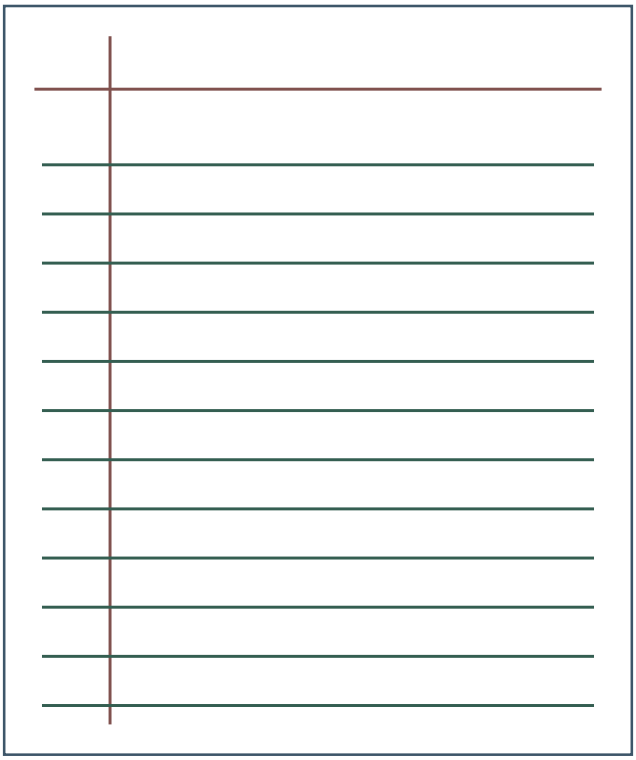
Notebook Paper Line Count

Reference | Reference layout | A4

Observation

Count the darker horizontal writing lines. The lighter horizontal and vertical margin guides are not writing lines.

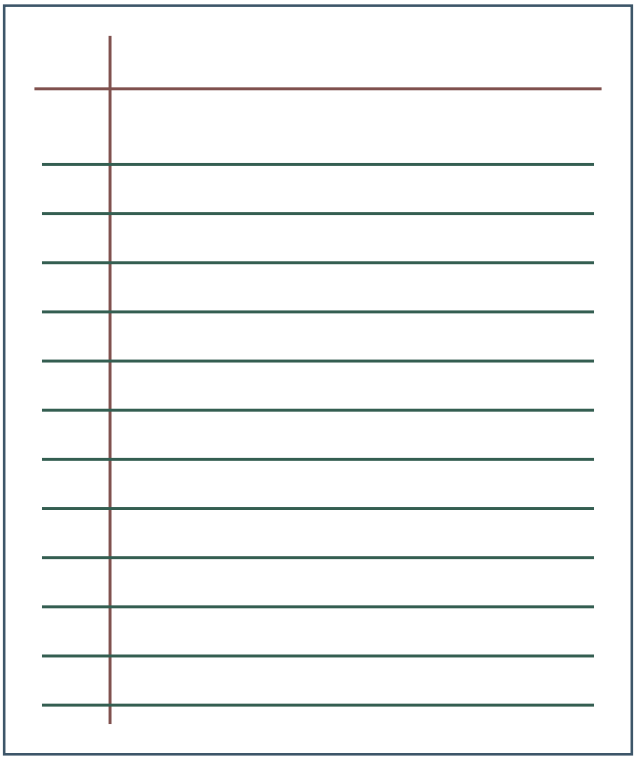


Notebook Paper Line Count

Reference I Worked layout I A4

Original prompt

Count the writing lines on the chosen example sheet: one top margin line, one vertical margin line, and twelve horizontal writing lines.



Answer

The sheet has 12 writing lines. The top margin line and the vertical margin line are not counted.

Reasoning

Counting the horizontal writing lines from top to bottom gives 1 through 12. Counting from bottom to top also gives 12, so the count is consistent.

Check

Count again from the bottom upward and confirm the same total of 12.
