Kindergarten Coloring Drawing Worksheet

Answer | Task 1 of 4 | A4

Original prompt

Task 1: Color the circle and the square. Use a different color for each shape and keep both thick outlines visible.

Answer

A correct result shows the circle filled with one color and the square filled with a different color, both fully colored inside, with both thick outlines still visible and no color outside the outlines.

Reasoning

The task practices choosing a color per shape and staying inside a thick outline, which are the two core coloring skills.

Check

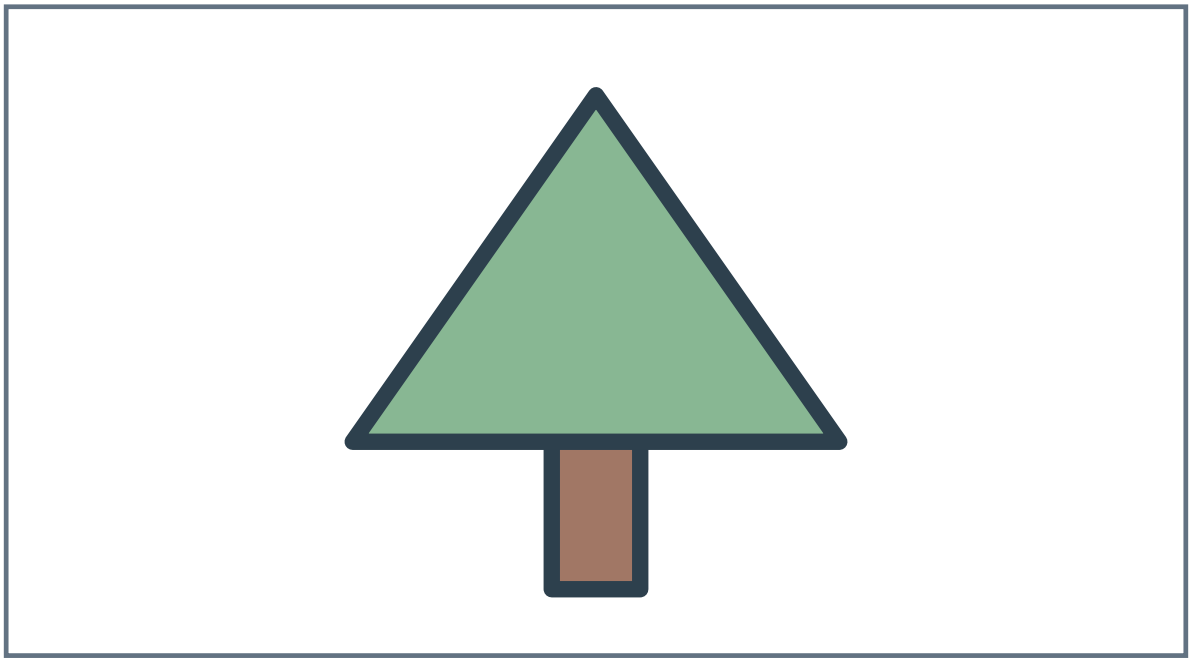

Check that the circle and square have different colors, that each shape is colored inside, and that both outlines are still clear.

Kindergarten Coloring Drawing Worksheet

Answer | Task 2 of 4 | A4

Original prompt

Task 2: Color the tree. The triangle top and the rectangle trunk each have a thick outline. Keep both outlines visible.

Answer

A correct result shows the triangle top filled with one color and the rectangle trunk filled with another color, both colored inside, with both thick outlines still visible.

Reasoning

The task practices coloring two joined shapes with different colors while keeping each thick outline clear.

Check

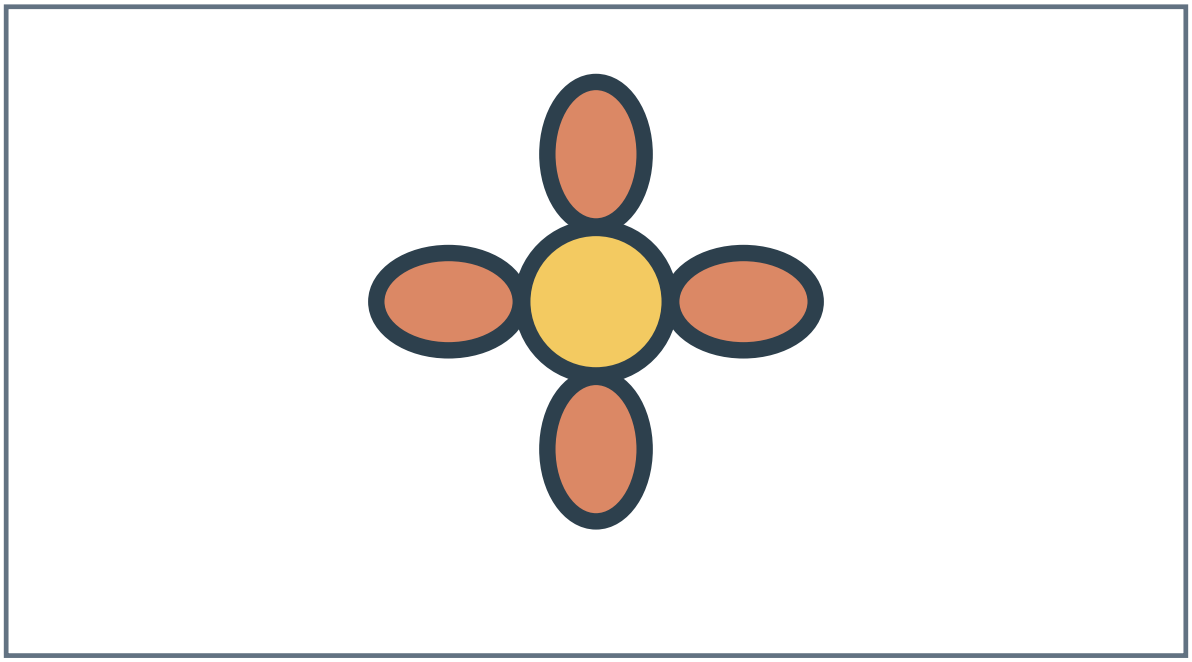

Check that the triangle and trunk each have color inside, that the colors are different, and that both outlines are still visible.

Kindergarten Coloring Drawing Worksheet

Answer | Task 3 of 4 | A4

Original prompt

Task 3: Color the flower. The circle center and the four petal shapes each have a thick outline. Keep all outlines visible.

Answer

A correct result shows the circle center filled with one color and the four petals filled with a chosen color or colors, all colored inside, with every thick outline still visible.

Reasoning

The task practices coloring several small shapes around a center while keeping each thick outline clear.

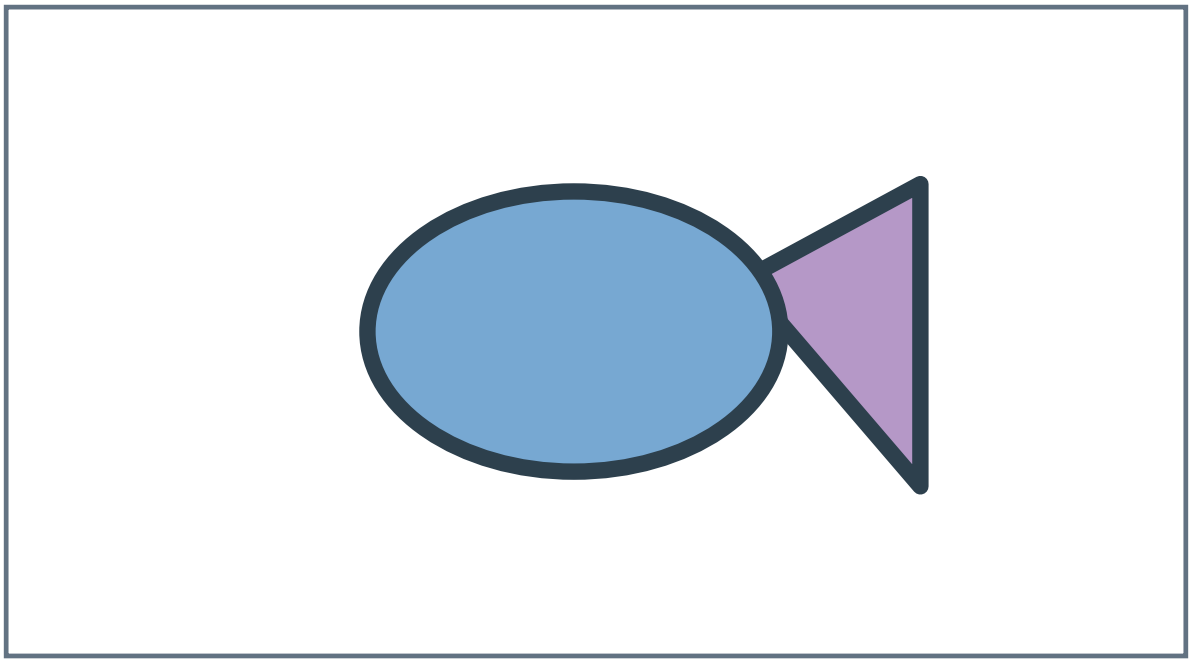

Check

Check that the center and all four petals have color inside, that no color crosses an outline, and that every outline is still visible.

Kindergarten Coloring Drawing Worksheet

Original prompt

Task 4: Color the fish. The oval body and the triangle tail each have a thick outline. Keep both outlines visible.

Answer

A correct result shows the oval body filled with one color and the triangle tail filled with another color, both colored inside, with both thick outlines still visible.

Reasoning

The task practices coloring two different shapes joined together while keeping each thick outline clear.

Check

Check that the body and tail each have color inside, that the colors are different, and that both outlines are still visible.
