Phase 10 Dice Score Sheet

Reference I Worked example I LETTER

Original prompt

Fill the grid for Ana and Ben over three rounds using the round-by-round record in the worked example.

Recording order

Write the phase number, a check for complete or a dash for retry, then the supplied practice number.

Completed record

Round	Ana	Ben
Round 1	P1 ✓ 40	P1 — 25
Round 2	P2 — 30	P1 ✓ 35
Round 3	P2 ✓ 45	P2 — 20

Answer

Ana: R1 phase 1 check 40; R2 phase 2 dash 30; R3 phase 2 check 45. Ben: R1 phase 1 dash 25; R2 phase 1 check 35; R3 phase 2 dash 20.

Reasoning

Ana completed phase 1 in R1, so R2 is phase 2; she did not complete phase 2 in R2, so R3 stays phase 2. Ben did not complete phase 1 in R1, so R2 stays phase 1; he completed it in R2, so R3 is phase 2.

Check

Ana has two checks and one visible phase increase (1 to 2 between R1 and R2); her final row is a check, so checks exceed visible increases by one. Ben has one check and one visible increase (1 to 2 between R2 and R3); his final row is a dash, so the counts match.
