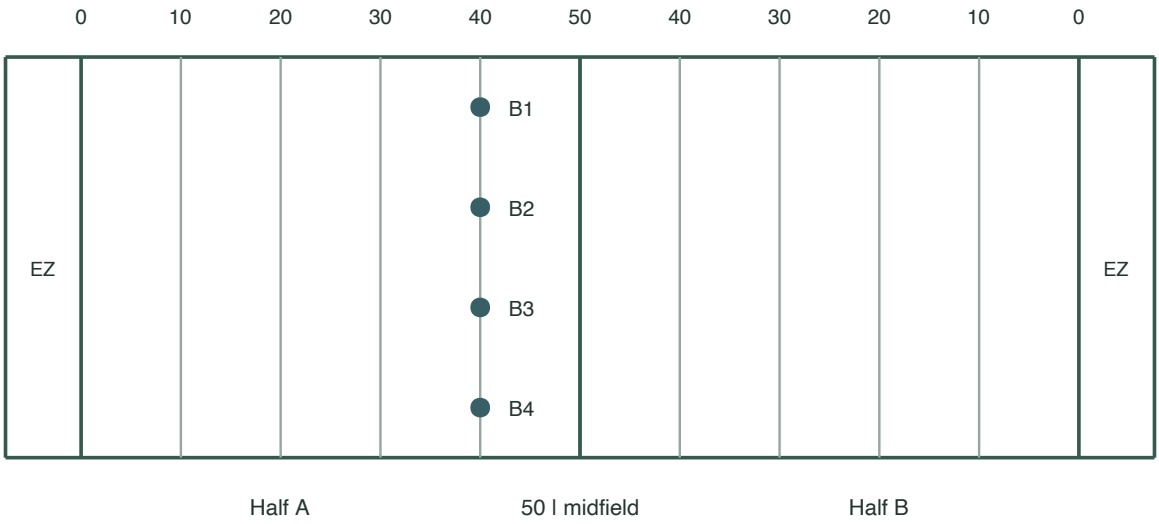
Circle: brass. Equal intervals in half A.

# Marching Band Drill Chart

Reference l Worked example l LETTER

## Original prompt

Build a small drill grid for a four-performer brass line and place them on the 40-yard line, evenly spaced across the field.



Circle: brass. Equal intervals in half A.

## Answer

Place four matching brass circles on half A's 40-yard line at equal lateral intervals. Label them B1 to B4 and add a key naming the symbol and spacing rule.

## Reasoning

The grid gives a readable field frame; the 40-yard line fixes the front-to-back position; even lateral intervals make the line visually checkable.

## Check

Confirm all four symbols sit on the 40-yard line, the intervals look equal, labels do not overlap, and the key explains the symbol and spacing choice.
