Pool Rules Sign

Answer | Task 1 of 4 | LETTER

Prompt

Task 1: Lay out a sign titled 'POOL RULES' with two editable rule lines and a footer, inside a frame.

Answer

Place POOL RULES in the title band and add two lines: 1 Keep drinks away from the table, and 2 Chalk before you shoot. Put Have fun in the footer below the list.

Reasoning

Two numbered lines form the editable list, the title names the sign, and the footer closes it; the frame holds them together.

Check

Check the frame encloses title, both numbered lines, and footer, and numbering runs 1 to 2.

Pool Rules Sign

Answer | Task 2 of 4 | LETTER

Prompt

Task 2: Start from a sign with lines '1 Keep food off the table', '2 No running on the deck', '3 Rack before you break'. Replace rule 2 and add a fourth rule, keeping numbering continuous.

Answer

Lines become '1 Keep food off the table', '2 Wait your turn', '3 Rack before you break', '4 Return the cue'; numbering runs 1 to 4.

Reasoning

Editing one line changes only that rule, and adding a line at the end keeps the numbers continuous from 1 to 4.

Check

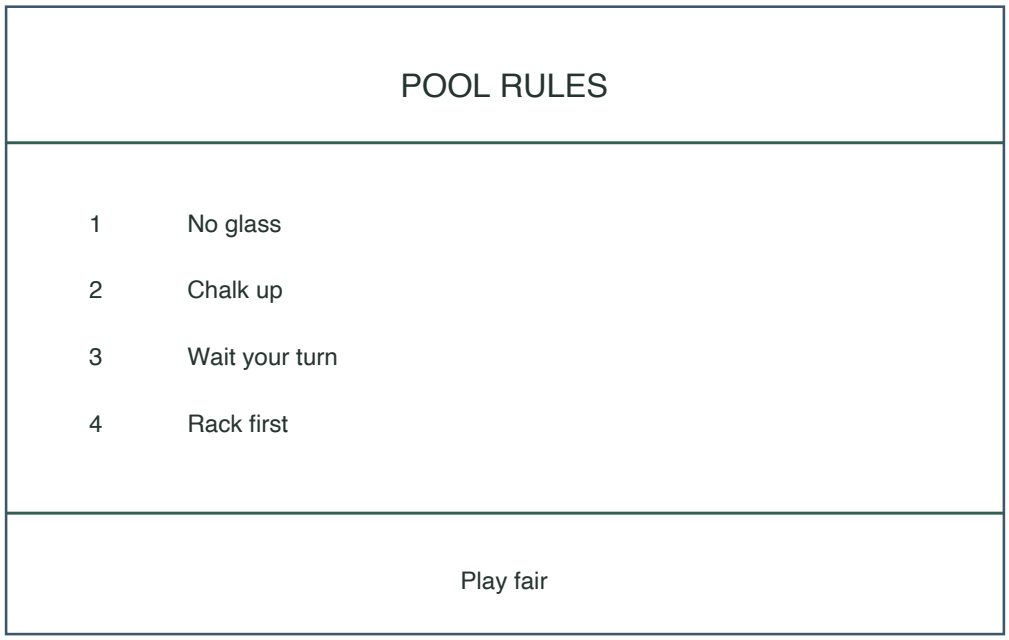
Confirm four lines, numbers 1 to 4 with no gaps, and that only rule 2 changed plus one new line added.

Pool Rules Sign

Answer | Task 3 of 4 | LETTER

Prompt

Task 3: Lay out a sign with four short rule lines and check each fits one line inside the frame.



Answer

Title 'POOL RULES'; lines '1 No glass', '2 Chalk up', '3 Wait your turn', '4 Rack first'; footer 'Play fair'; each rule on one line inside the frame.

Reasoning

Short rules fit one line each, so the list stays readable and editable; the frame encloses all parts.

Check

Check each of the four rules sits on a single line within the frame and numbering runs 1 to 4.

Pool Rules Sign

Answer | Task 4 of 4 | LETTER

Prompt

Task 4: Redraw a given sign so the title band, rule list, and footer are clearly separated, then check the frame encloses everything.

Answer

Move POOL RULES into its own band at the top. Move the same three numbered rules into the middle and Enjoy your game into a footer below them. Separate the three regions with spacing and rules inside the frame.

Reasoning

Separating the three zones makes the sign easy to read and easy to edit, while the frame keeps the parts together.

Check

Confirm three distinct zones (title, list, footer) are visible and the frame encloses all of them.
