Cat Return Address Labels

Answer | Task 1 of 4 | LETTER

Prompt

Task 1: Lay out a cat return-address label sheet for 'M. Chen / 8 Birch Court / Fairview, CA 95000' using a cat-head motif in the upper-right corner. Draw the label field, the motif, and the cut guides, then check.

Answer

Repeated rectangular labels. Each label has 'M. Chen / 8 Birch Court / Fairview, CA 95000' in a clear left field and a cat-head motif in the upper-right corner. Rectangle cut guides surround each label with a small gap. Check: address readable on every label, motif clear of text, each guide encloses one label.

Reasoning

The address stays in a clear field; the cat-head motif is placed in a corner so it does not cover text; the guides follow label boundaries.

Check

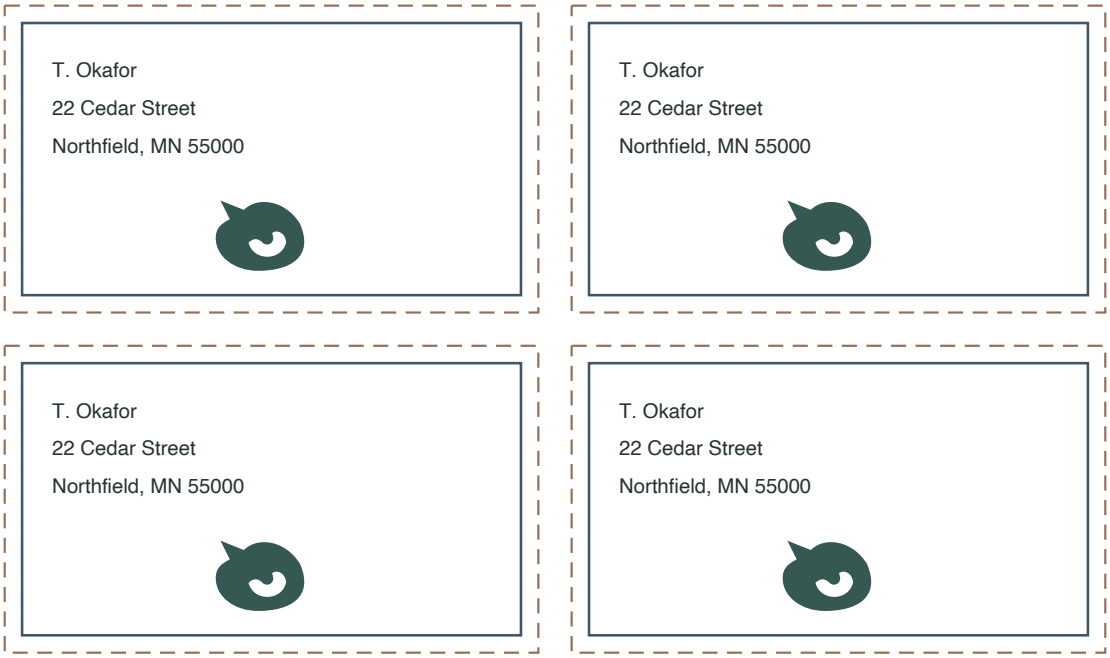

Read the address on each label, confirm the cat-head motif does not overlap the text, and trace each guide to confirm it encloses one label.

Cat Return Address Labels

Answer | Task 2 of 4 | LETTER

Prompt

Task 2: Lay out a cat return-address label sheet for 'T. Okafor / 22 Cedar Street / Northfield, MN 55000' using a curled-cat motif along the bottom edge. Draw the label field, the motif, and the cut guides, then check.

Answer

Repeated rectangular labels. Each label has 'T. Okafor / 22 Cedar Street / Northfield, MN 55000' in a clear upper field and a curled-cat motif along the bottom edge. Rectangle cut guides surround each label with a small gap. Check: address readable, motif clear of text, guides enclose one label each.

Reasoning

The curled-cat motif runs along the bottom edge so the address field above stays clear; the guides follow the label boundary.

Check

Read the address on each label, confirm the curled-cat motif stays below the text, and trace each guide to confirm it encloses one label.

Cat Return Address Labels

Answer | Task 3 of 4 | LETTER

Prompt

Task 3: Lay out a cat return-address label sheet for 'S. Patel / 5 Willow Way / Brookside, TX 75000' using a seated cat silhouette in the lower-left corner. Draw the label field, the motif, and the cut guides, then check.

Answer

Repeated rectangular labels. Each label has 'S. Patel / 5 Willow Way / Brookside, TX 75000' in a clear right field and a seated cat silhouette in the lower-left corner. Rectangle cut guides surround each label with a small gap. Check: address readable, motif clear of text, guides enclose one label each.

Reasoning

The address field is shifted right to leave room for the lower-left motif; the guides follow the label boundary.

Check

Read the address on each label, confirm the seated cat silhouette does not overlap the text, and trace each guide to confirm it encloses one label.

Cat Return Address Labels

Answer | Task 4 of 4 | LETTER

Prompt

Task 4: Lay out a cat return-address label sheet for 'A. Novak / 31 Pine Road / Lakeview, NY 11000' using a cat-head motif in the upper-left corner. Draw the label field, the motif, and the cut guides, then check.

Answer

Repeated rectangular labels. Each label has 'A. Novak / 31 Pine Road / Lakeview, NY 11000' in a clear right field and a cat-head motif in the upper-left corner. Rectangle cut guides surround each label with a small gap. Check: address readable, motif clear of text, guides enclose one label each.

Reasoning

The address field is shifted right to leave room for the upper-left motif; the guides follow the label boundary.

Check

Read the address on each label, confirm the cat-head motif does not overlap the text, and trace each guide to confirm it encloses one label.
