Contour Drawing of Architecture

Student | Task 1 of 4 | LETTER

Original prompt

Task 1 (blind contour): Without looking at your paper, draw the outline of the reference building as one continuous line. Look only at the reference.

Contour Drawing of Architecture

Student | Task 2 of 4 | LETTER

Original prompt

Task 2 (slow contour): Looking at both the reference and your paper, draw the building's outline slowly as one continuous, connected line. Include the roof, front wall, side wall, door, and windows.

Contour Drawing of Architecture

Student | Task 3 of 4 | LETTER

Original prompt

Task 3 (reference-guided redraw): Study the reference building, then redraw its contour from memory, keeping the outline continuous and connected. You may glance at the reference once to check.

Study the reference on the separate sheet, then turn it face down while you draw. Glance once to check.

Your drawing and check

Contour Drawing of Architecture

Student | Task 4 of 4 | LETTER

Original prompt

Task 4 (visual check): Draw a contour of the reference building, then compare it to the reference and mark one place where your line departs from the building's edges. Redraw that section correctly.
