Drawing Straight Lines with a Ruler

Student | Task 1 of 4 | A4

Original prompt

Task 1: A sheet shows two dots. Place a ruler so its edge passes through both dots and draw the line along the edge.

Drawing Straight Lines with a Ruler

Student | Task 2 of 4 | A4

Original prompt

Task 2: A sheet shows a single dot and a short mark indicating direction. Place the ruler edge through the dot along the mark and draw a straight line from the dot in that direction.

Drawing Straight Lines with a Ruler

Student | Task 3 of 4 | A4

Original prompt

Task 3: A sheet shows two dots with a gap between them. Draw a straight line that starts at the first dot, passes through the second dot, and continues a short distance beyond it along the same ruler edge.

Drawing Straight Lines with a Ruler

Student | Task 4 of 4 | A4

Original prompt

Task 4: A sheet shows a finished line drawn with a ruler. Check it visually: is it straight, does it sit flush with a ruler edge, and does it pass through the intended start and end points? Mark any drift or missed point.
