Window Perspective Drawing

Student | Task 1 of 4 | A4

Original prompt

Task 1: Draw a one-point window plate with the guide at eye level and the window centered on the wall. Include near opening, far opening, reveal, frame, and sill.

Construct and check your window here

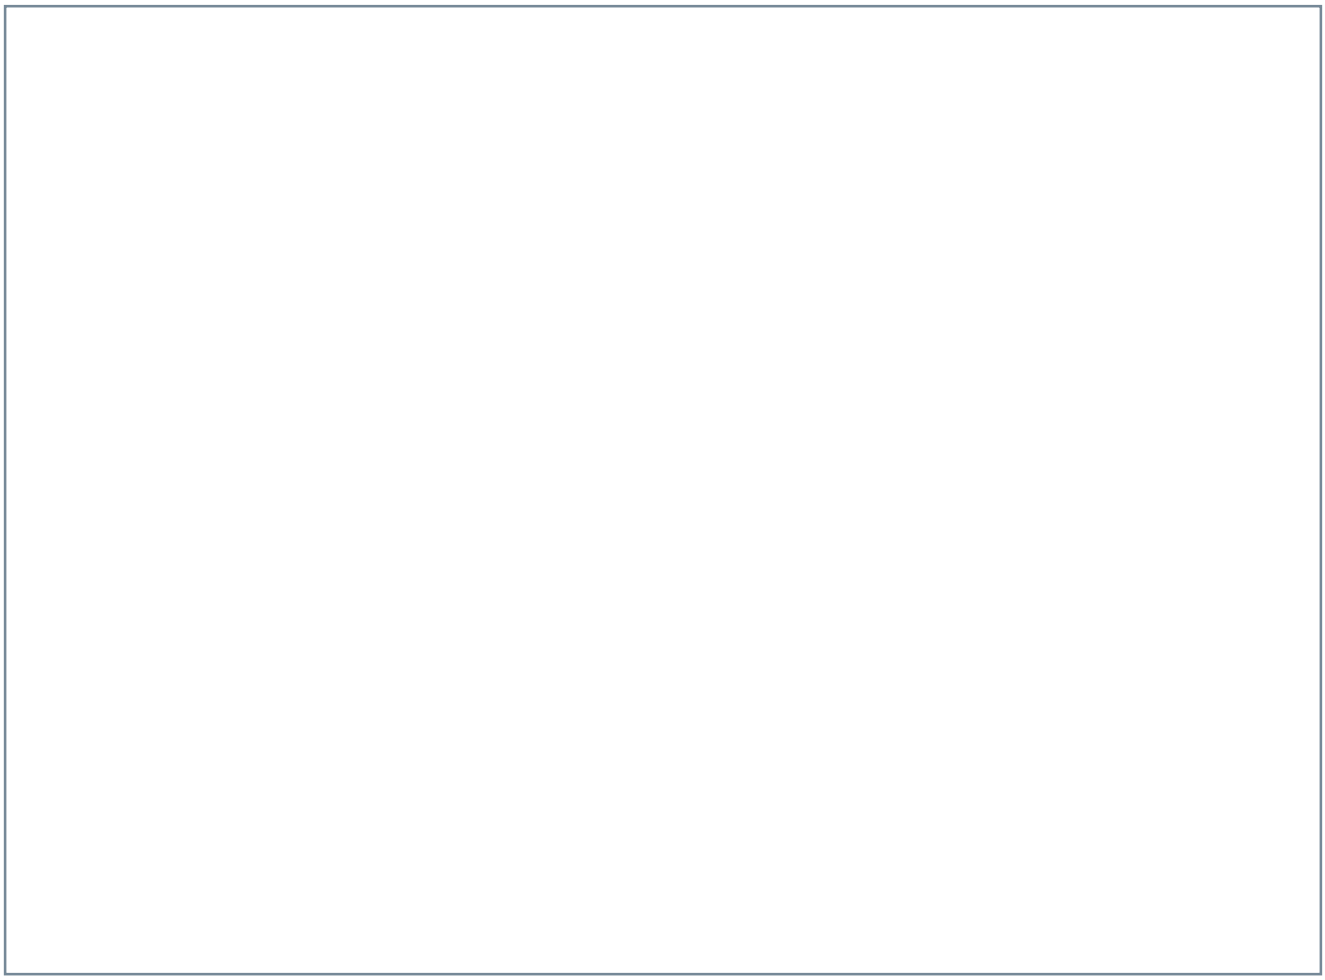

Window Perspective Drawing

Student | Task 2 of 4 | A4

Original prompt

Task 2: Draw the same construction with the guide moved to the left of the wall and the window on the right.

Construct and check your window here

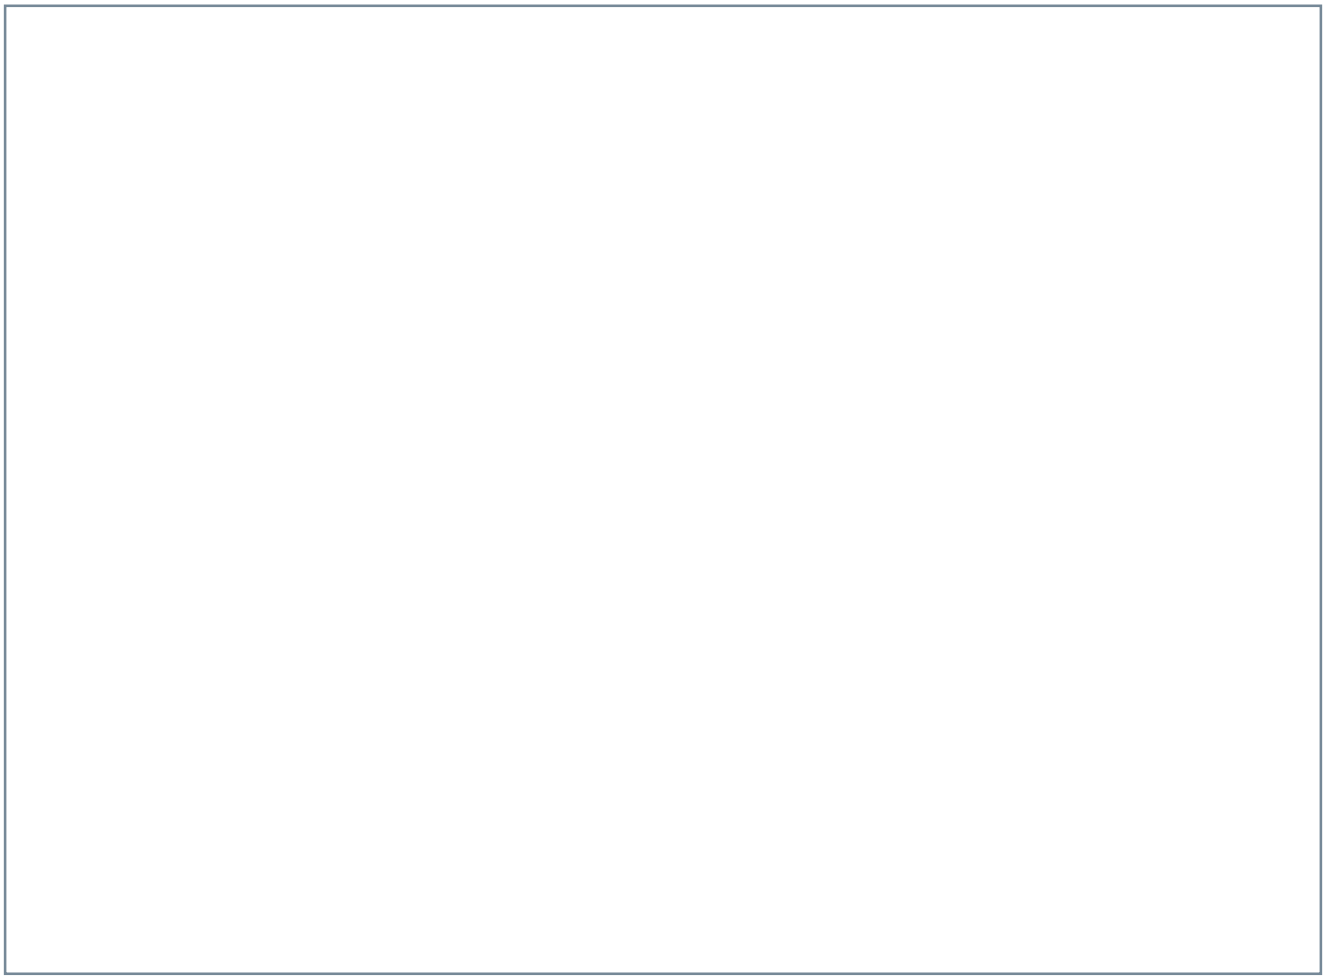

Window Perspective Drawing

Student | Task 3 of 4 | A4

Original prompt

Task 3: Draw a window plate where the sill is deeper than in the worked example, so its front edge sits farther from the wall.

Construct and check your window here

Window Perspective Drawing

Student | Task 4 of 4 | A4

Original prompt

Task 4: Draw a window plate and then redraw it with the frame wider, keeping the same guide and opening.

Your first window

Same window with a wider frame
