Perspective Drawing Mathematics

Student | Task 1 of 4 | A4

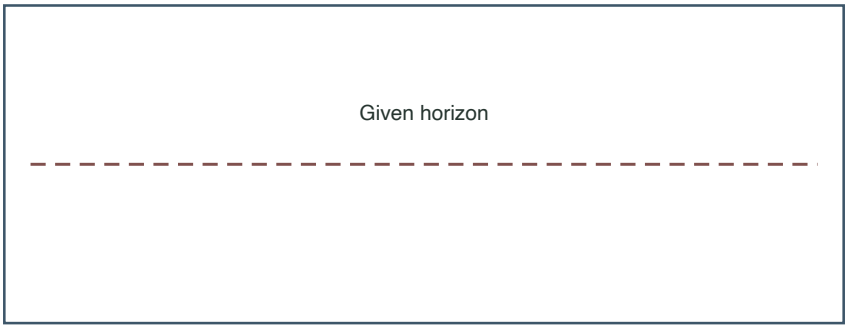

Prompt

Given a horizon line and a station point on the perpendicular through the picture center, construct the single vanishing point for a one-point perspective.

Perspective Drawing Mathematics

Student | Task 2 of 4 | A4

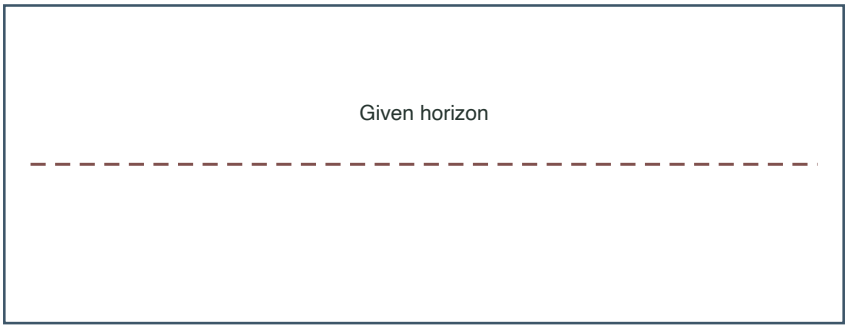

Prompt

Given a horizon line and an offset station point, construct two vanishing points for a rectangular object whose edges run left and right.

Perspective Drawing Mathematics

Student | Task 3 of 4 | A4

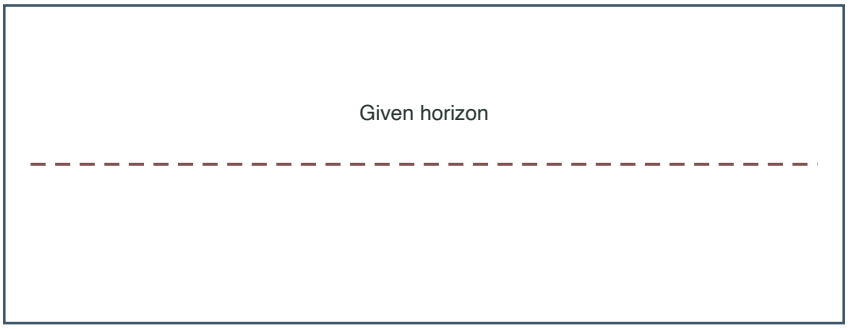

Prompt

Given a horizon line, a station point, and one vanishing point VPL, construct the second vanishing point VPR for an object whose two edge families are perpendicular in plan.

Perspective Drawing Mathematics

Student | Task 4 of 4 | A4

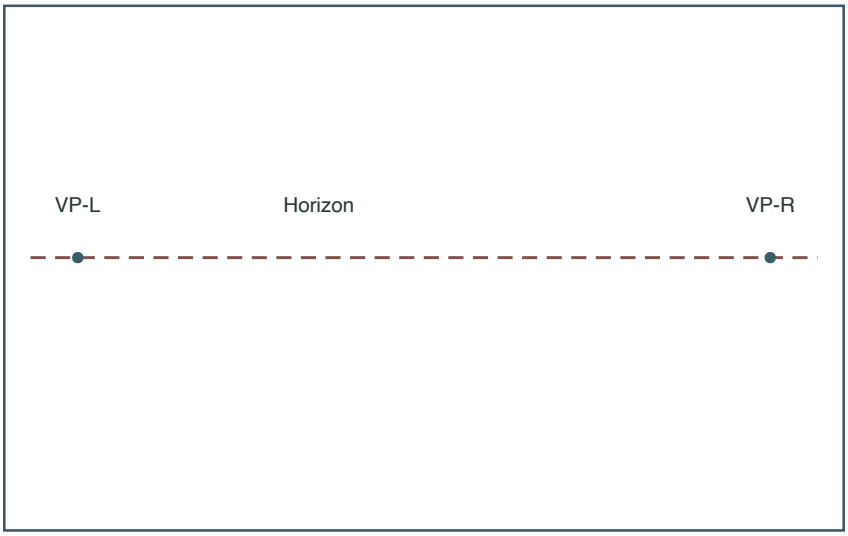

Prompt

Given a completed two-point plate with horizon, station point, VPL, and VPR, redraw a simple rectangular box in perspective using both vanishing points.
