Draw a Palm Tree in Street Perspective

Student | Task 1 | A4

Original task prompt

Task 1 (observation): Using the reference street-and-palm picture, describe where the street narrows and where the palm sits in that space.

Reference picture

Where does the street narrow?

Where is the palm placed?

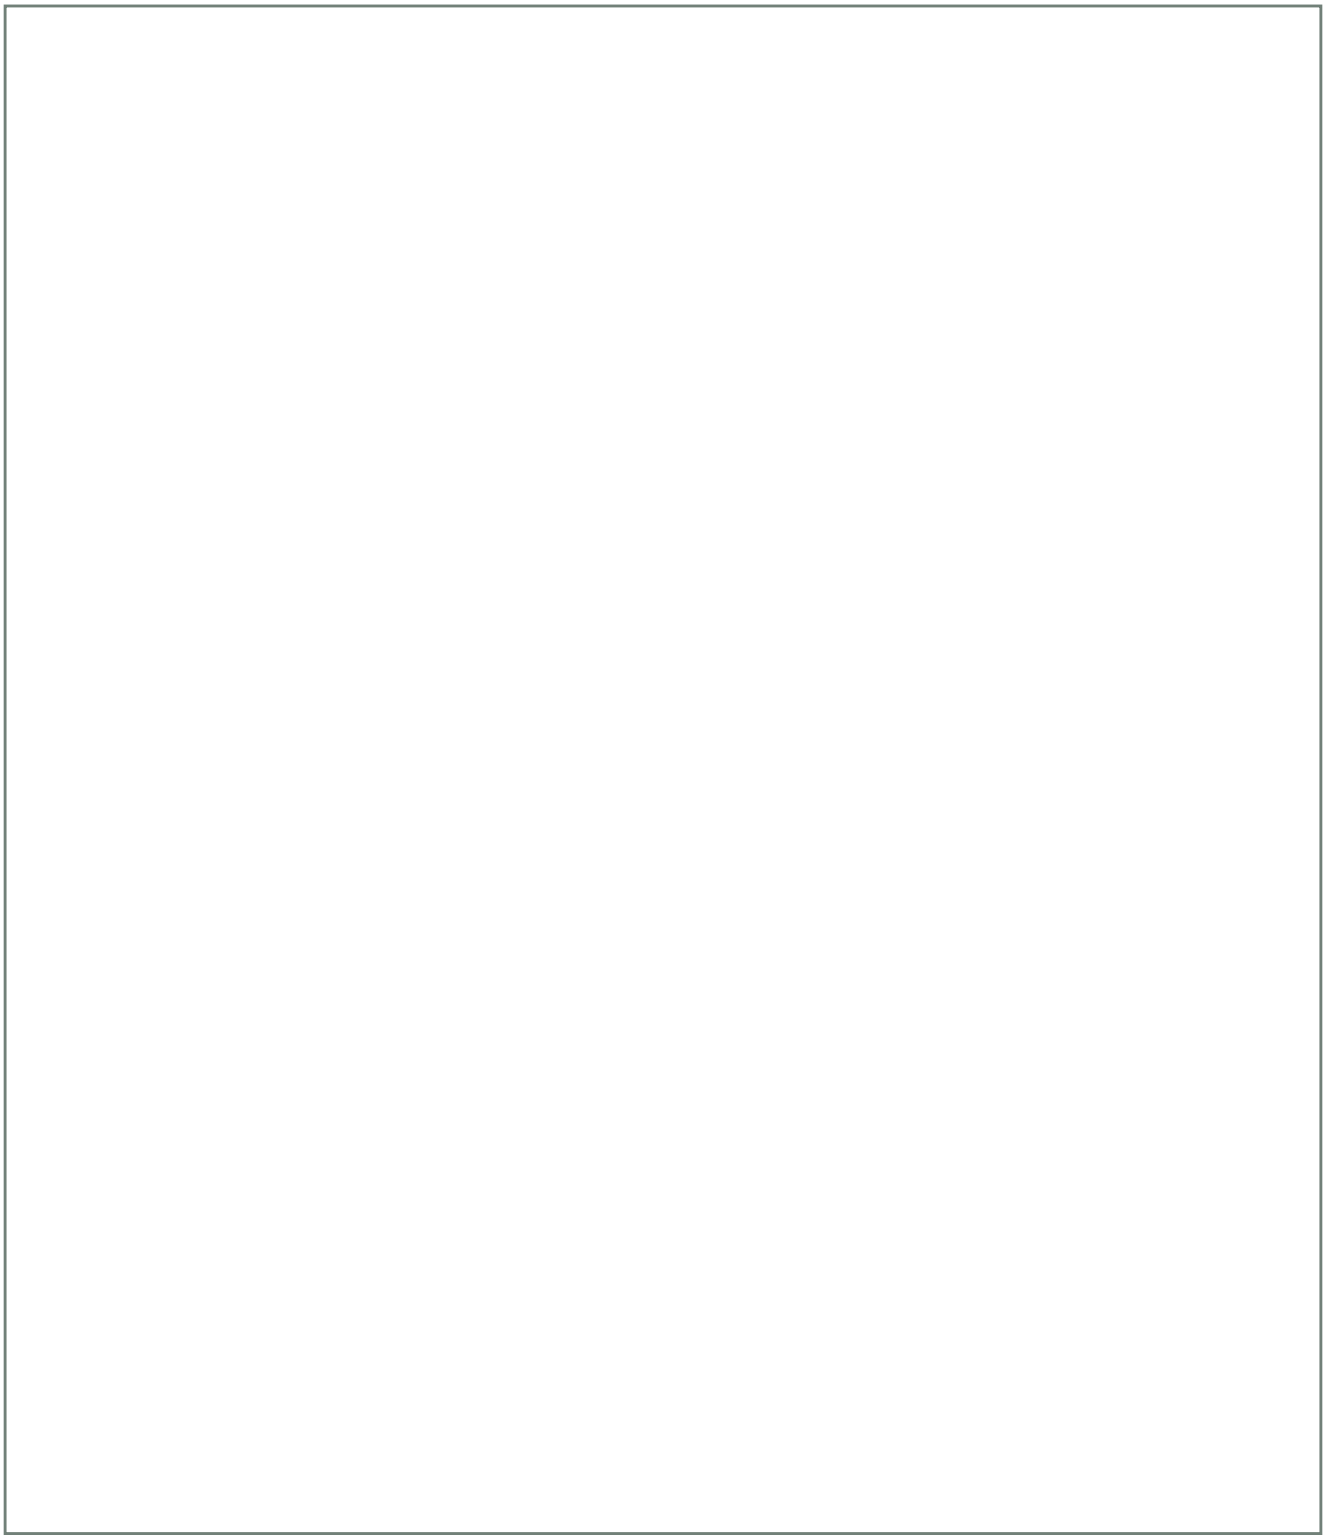

Draw a Palm Tree in Street Perspective

Student | Task 2 | A4

Original task prompt

Task 2 (construction): Draw a horizon line, choose a vanishing point, and draw two converging street edges.

Draw the complete construction in the blank field below.

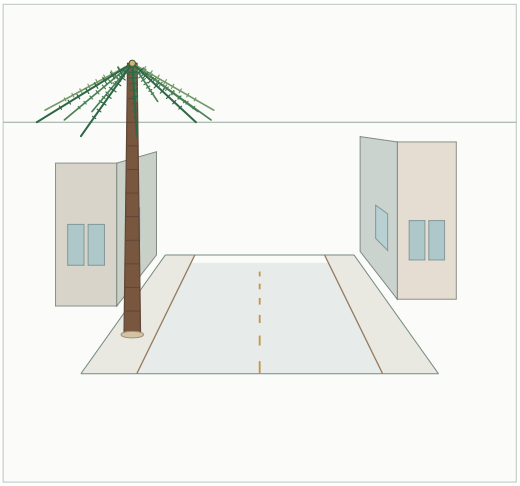

Draw a Palm Tree in Street Perspective

Student | Task 3 | A4

Original task prompt

Task 3 (reference-guided redrawing): Redraw the palm from the reference into your narrowing street, keeping the trunk tapered and fronds radiating from the crown center.

Reference picture

Draw your narrowing street and palm in the blank area.

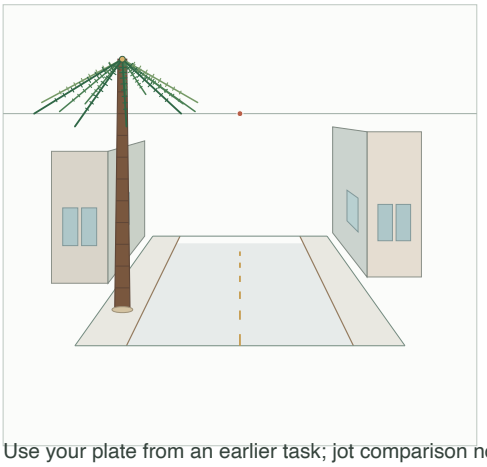

Draw a Palm Tree in Street Perspective

Student | Task 4 | A4

Original task prompt

Task 4 (visual checking): Compare your plate to the worked example and mark any street edge that does not aim at the vanishing point or any frond that breaks the crown's radial pattern.

Worked example to compare against

Use your plate from an earlier task; jot comparison notes below.

Your comparison notes

- [ ] Street edges reach the chosen VP?
- [ ] Fronds radiate from the crown center?
