Original prompt

A player scores 7 points. Show the tally and total.

Round: 1 Table: A

Player	Round tally	Total
Example player		7

Answer

Draw four upright marks crossed by a fifth (5), then two more marks. Total space: 7. Check: 5 + 2 = 7.

Reasoning

Tally marks group in fives, so 7 is one crossed group of five plus two marks.

Check

Count groups of five, then leftover marks, and compare to the written total.
