Draw a Treehouse in Two-Point Perspective

Student | Task 1 of 4 | A4

Original prompt

Task 1 (Observation): On the reference plate, identify and label the two vanishing points, the horizon line, the four platform corners, and the four support posts. Then describe in one sentence how the front posts differ from the back posts in this plate.

Your labelled construction and notes

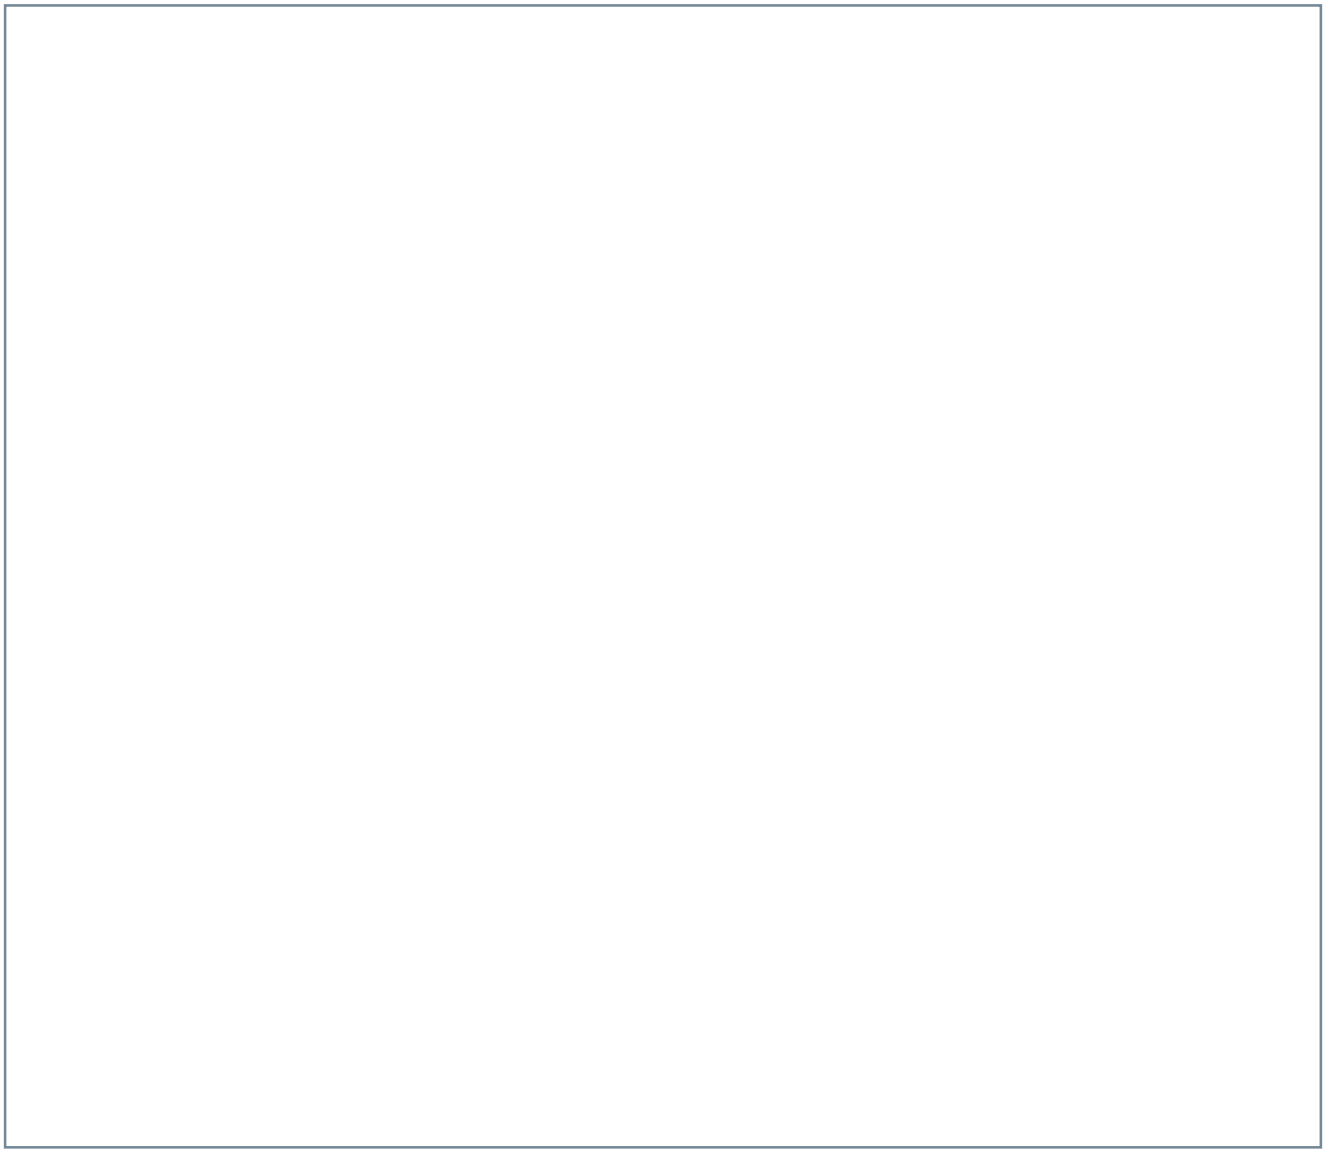

Draw a Treehouse in Two-Point Perspective

Student | Task 2 of 4 | A4

Original prompt

Task 2 (Construction): Starting from a new horizon line and two new vanishing points of your choosing, construct a treehouse platform slab and four vertical support posts. Show the guide lines to the vanishing points.

Your drawing and straightedge check

Draw a Treehouse in Two-Point Perspective

Student | Task 3 of 4 | A4

Original prompt

Task 3 (Reference-guided redrawing): Redraw the reference plate's treehouse platform and posts, but move the platform lower so it sits below the horizon line. Keep the same two vanishing points and keep the posts vertical.

Your drawing and straightedge check

Draw a Treehouse in Two-Point Perspective

Student | Task 4 of 4 | A4

Original prompt

Task 4 (Checking): Swap your Task 2 drawing with a partner or check it yourself. Find any platform edge that does not aim at its vanishing point and any post that is not vertical. Mark each error and redraw the corrected line.
