Christmas Isometric Drawing

Student | Task 1 of 4 | LETTER

Original prompt

Task 1 — Trace the axes. On a blank triangle grid, draw one short line in each of the three isometric axis directions from a single starting point, and label which is vertical, up-right, and up-left.

Christmas Isometric Drawing

Student | Task 2 of 4 | LETTER

Original prompt

Task 2 — Build a gift. On the triangle grid, construct a wrapped gift box using the three axes, with a ribbon crossing the top face and running down the front.

Christmas Isometric Drawing

Student | Task 3 of 4 | LETTER

Original prompt

Task 3 — Build a tree. On the triangle grid, construct a small tree: a short trunk box and two or three stacked triangular tiers, each narrower than the one below.

Christmas Isometric Drawing

Student | Task 4 of 4 | LETTER

Original prompt

Task 4 — Compose the plate. On one triangle grid, place the gift and the tree together as a small Christmas scene, keeping both on the same three axes and leaving clear space between them.
