Draw a Dining Room in One-Point Perspective

Student | Task 1 of 4 | A4

Original prompt

Task 1 (observation): Using the reference picture of a one-point dining room, mark on a blank sheet where the room's receding lines and the table's long edges appear to meet, and state whether they share one meeting region.

Mark and explain the apparent meeting region

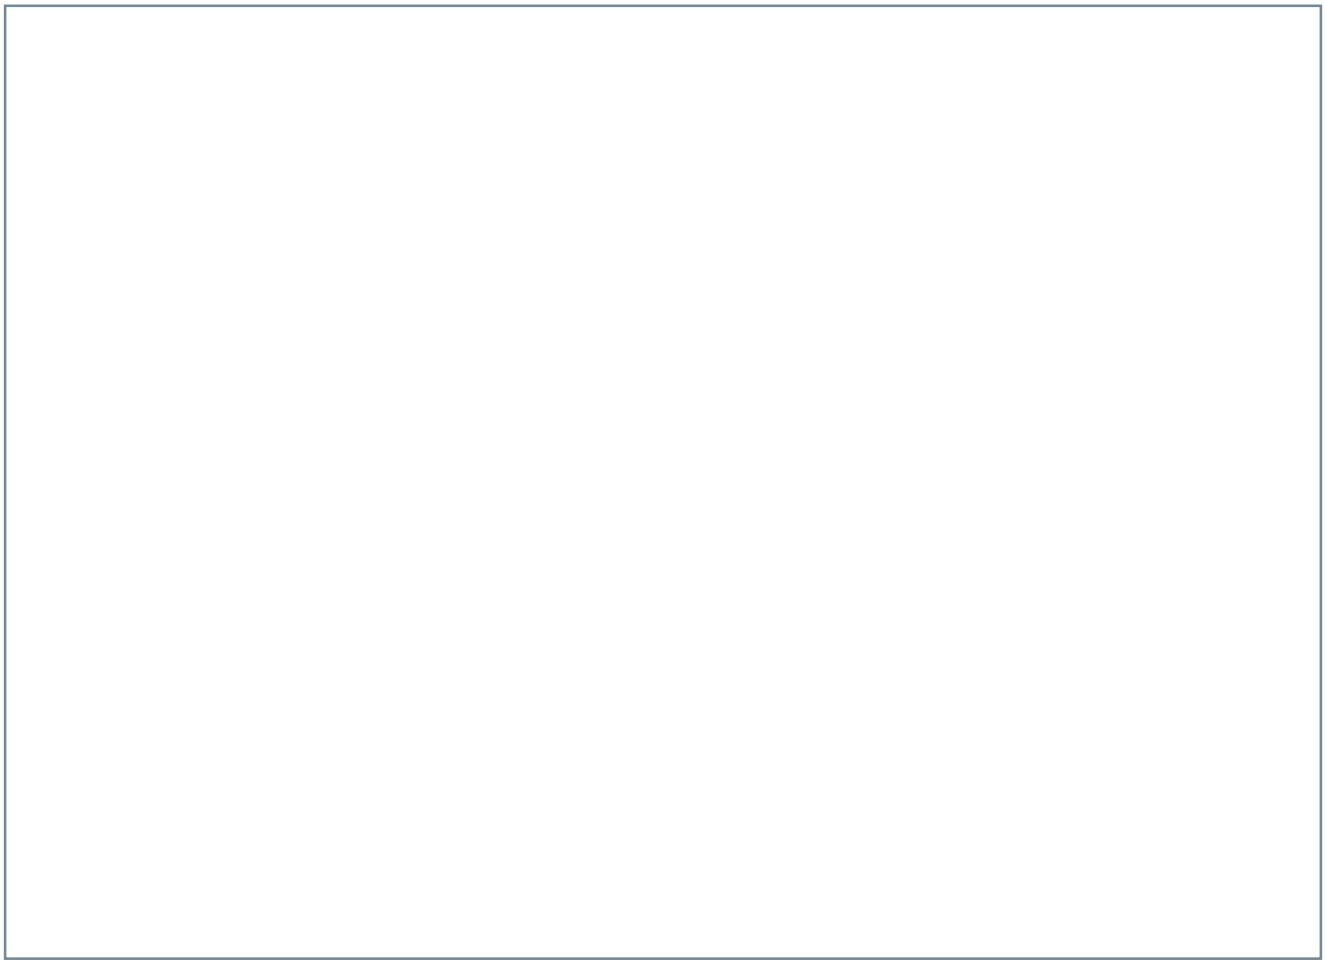
Draw a Dining Room in One-Point Perspective

Student | Task 2 of 4 | A4

Original prompt

Task 2 (construction): On a blank sheet, draw a horizon line, one vanishing point, a back-wall rectangle, and the four receding corner lines for a dining room.

Build the room corners



Draw a Dining Room in One-Point Perspective

Student | Task 3 of 4 | A4

Original prompt

Task 3 (reference-guided redrawing): Redraw the table from the reference picture as a box-like form in your own room construction, with its top edges converging to your vanishing point and its legs vertical.

Construct your table and legs

Draw a Dining Room in One-Point Perspective

Student | Task 4 of 4 | A4

Original prompt

Task 4 (visual checking): Review your completed plate and correct any line that does not converge to the vanishing point or any leg that is not vertical.

Check and redraw your room
