Draw a Spooky Halloween Scene

Reference I Finished reference I LETTER

Learn to draw an easy spooky Halloween scene built from silhouettes: a haunted house and bare trees against a moonlit sky. The pack teaches silhouette composition, then gives four self-contained drawing tasks with full answer descriptions and visual checks.

Draw a Spooky Halloween Scene

Reference I Worked example I LETTER

Original prompt

Draw a simple spooky silhouette scene with a moon, a haunted house, and two bare trees.

Answer

A pale moon sits in the upper sky. A dark haunted house with a steep roof, chimney, and blank window shapes stands on the ground line. Two dark bare trees flank the house, and a low dark ground strip completes the scene.

Reasoning

The scene works because each element is a solid dark shape against a lighter sky, so the house and trees are recognized by outline rather than interior detail.

Check

Look at the drawing from a short distance: the house and trees should still be identifiable as dark shapes, and the moon should remain clearly visible.
