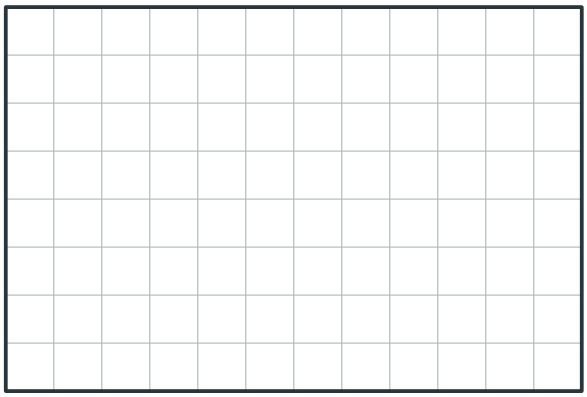
Plan a small room

Scale: 1/4 in represents 1 ft. This is a drawing exercise, not a construction plan.

12 ft / 3 in on paper



8 ft

1. Place a desk 4 ft wide and 2 ft deep against the upper wall. Start its left edge 2 ft from the left wall.

2. Mark a 3 ft door opening on the lower wall. Leave 1 ft between the right end of the opening and the right corner.

Check: room 76.2 x 50.8 mm; desk 25.4 x 12.7 mm; door opening 19.05 mm. The true same-unit drawing ratio is 1:48.
