

Floor-plan practice: Room A: feet

Fictional room 12 x 10 ft. Ratio 1:48. Coordinates start at the lower-left corner: x right, y up. Place each item using the table. The two room exercises are independent examples, not unit conversions.

- Item / lower-left position / size (all ft)
- Desk: (1, 8); 4 wide x 2 deep
- Shelf: (11, 6); 1 wide x 3 deep
- Door on lower wall: x=1 to 4. Window on upper wall: x=7 to 10.

Room area = 120 ft². Furniture footprint = 11 ft². Arithmetic remainder = 109 ft². Drawing size 76.2 x 63.5 mm. Door swing and circulation are not subtracted from this arithmetic remainder.

Drawing practice only. Not a construction, approval or accessibility plan.

Floor-plan practice: Room B: metres

Fictional room 4 x 3 m. Ratio 1:50. Coordinates start at the lower-left corner: x right, y up. Place each item using the table. The two room exercises are independent examples, not unit conversions.

- Item / lower-left position / size (all m)
- Desk: (0.4, 2.4); 1.2 wide x 0.6 deep
- Shelf: (3.7, 1.5); 0.3 wide x 0.9 deep
- Door on lower wall: x=0.4 to 1.2. Window on upper wall: x=2.4 to 3.2.

Room area = 12 m². Furniture footprint = 0.99 m². Arithmetic remainder = 11.01 m². Drawing size 80 x 60 mm. Door swing and circulation are not subtracted from this arithmetic remainder.

Drawing practice only. Not a construction, approval or accessibility plan.
