

Letter and A4: choose before printing

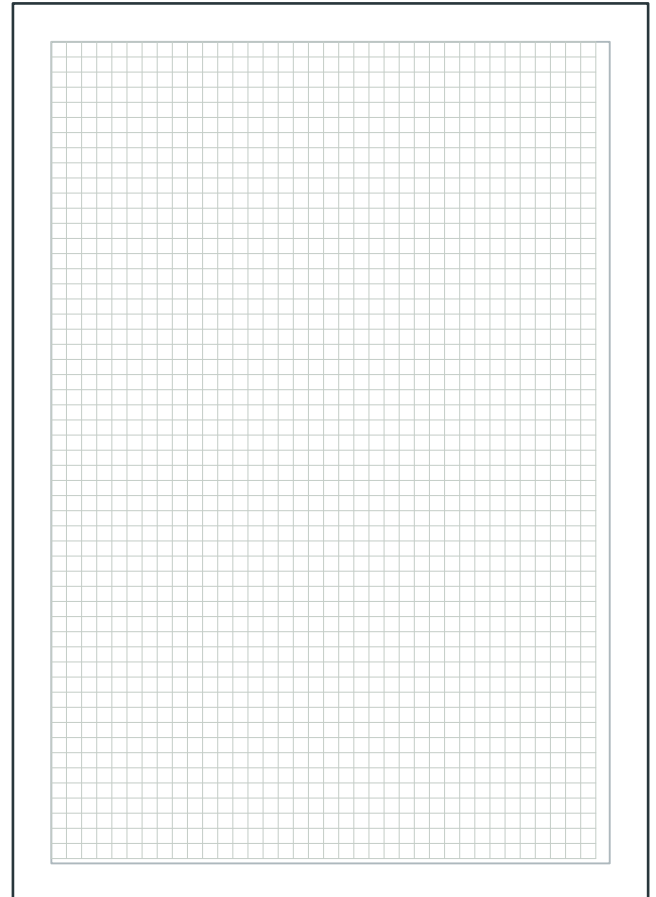

Compare paper dimensions, not the size of a browser preview. The drawings below are at 40% scale. Choose the PDF and printer tray matching the physical paper.

LETTER

215.9 x 279.4 mm

A4

210 x 297 mm

Task: find the width and height differences. Subtract two 12.7 mm margins from each dimension. How many whole 5 mm cells fit in each usable rectangle? Ignore leftover partial cells.

Both sheets retain the same mathematical 5 mm grid spacing when generated at full size. These reduced diagrams do not. No physical print test has been performed; calibrate an actual print separately.
