Design a Ruled Note Sheet with Heading and Date Fields

Worked example / complete source key

Using the hypothetical values in this lesson, compute the number of full note rows on page one and page two, and state the remainder for each.

Answer: Page one: 267 mm usable height minus 25 mm heading band equals 242 mm; 242 divided by 8 mm equals 30 full rows with 2 mm remainder. Page two: 267 minus 25 minus 15 equals 227 mm; 227 divided by 8 equals 28 full rows with 3 mm remainder.
