Design a Ruled Note Sheet with Heading and Date Fields

Original tasks 1, 2 / independent work

Task 1

A hypothetical sheet has usable height 250 mm, heading band 20 mm, and row height 10 mm. Compute the number of full rows and the remainder.

Task 2

A hypothetical page two has usable height 260 mm, heading band 25 mm, subject area 15 mm, and row height 8 mm. Compute full rows and remainder.

Design a Ruled Note Sheet with Heading and Date Fields

Original tasks 3, 4 / independent work

Task 3

A writer uses a hypothetical x-height of 5 mm. What is the minimum row height under the convention that row height is at least twice the x-height?

Task 4

A hypothetical sheet has usable width 180 mm and a margin line 20 mm from the left usable edge. How wide is the note text area?
