Decorative Ruled Stationery: Plan a Writing Sheet, Note Card, and Bordered Page

Original task 1 / independent drawing and calculation

Task 1

A hypothetical ruled block is 240 mm tall. You choose 6 mm spacing. Find the number of full lines and the remainder.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 2 / independent drawing and calculation

Task 2

A hypothetical card ruled block is 182 mm tall. You want exactly 20 lines with no remainder. What exact interval results, and what happens if you round it?

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 3 / independent drawing and calculation

Task 3

Design a decorative border for a ruled sheet. Use a rubric to judge whether the border supports the writing area without competing with it.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 4 / independent drawing and calculation

Task 4

A hypothetical page is 210 mm wide. You use 8 mm outer margins, 17 mm border bands on each side, and 5 mm gaps between border and rules. Find the ruled block width. Then state the maximum border band width if the ruled block must be at least 150 mm.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
