Drawing Words on Lettering Plates: Guided Letterform Construction

Original tasks 1, 2 / independent work

Task 1

Specification task: describe what a guided plate for DOG should show for D, O, and G, including one valid stroke order and one permitted variation.

Task 2

Specification task: describe how a spacing guide should treat the S–E and E–A gaps in SEA, and define a provisional gap without a published unit.

Drawing Words on Lettering Plates: Guided Letterform Construction

Original tasks 3, 4 / independent work

Task 3

Specification task: describe which letter pairs in GEM need adjustment before drawing, and why.

Task 4

Blank-plate task: plan how you would letter BAT independently, stating cap height, baseline, stroke logic, and spacing checks.
