Chosen reference / grid notes

Chosen 34 x 40 grid: 5 mm cells, 20 mm margin, 15 mm header.

The margin is 4 cells and the header is 3 rows at 5 mm. Overall row/column counts are chosen examples.

Graph Paper for Note Taking: Margin and Spacing Layouts

Original worked example / unchanged complete key

Prompt: A page has 5 mm grid cells. Labels need about 20 mm and the header needs about 15 mm. Estimate margin cells and header rows, then state a spacing rule.

Answer: Margin: 20 mm divided by 5 mm equals 4 cells. Header: 15 mm divided by 5 mm equals 3 rows. Spacing rule: one blank row between headings and around diagrams. These values are hypothetical inputs based on measured needs, not universal requirements.
