Blank Calligraphy Guideline Template: Adjustable Slant and x-Height

Original tasks 1, 2 / independent work

Task 1

Calculate the horizontal offset at a 10 mm ascender line for a 15° slant from vertical.

Task 2

Calculate the horizontal offset at a 20 mm ascender line for a 25° slant from vertical.

Blank Calligraphy Guideline Template: Adjustable Slant and x-Height

Original tasks 3, 4 / independent work

Task 3

Design a blank guideline template with a 12 mm ascender height, an x-height ratio between 0.4 and 0.7, and a slant between 10° and 30° from vertical. State your chosen values and calculate the offset.

Task 4

A writer's stems consistently diverge from 15° guides. Suggest two valid corrections and explain how you would check each.
