Free Typing Practice Document: Passage, Timing Box, and WPM Tracking

Original tasks 1, 2 / independent work

Task 1

A learner types 75 words in 1 minute 40 seconds with 5 word errors. Using actual-word counting, compute WPM and word-based accuracy.

Task 2

Design a blank tracking table row for a learner who stopped after 40 words in 1 minute 12 seconds with 2 errors. What values go in each column?

Free Typing Practice Document: Passage, Timing Box, and WPM Tracking

Original tasks 3, 4 / independent work

Task 3

A document states 'one word equals five characters including spaces' and a learner types 250 characters in 2 minutes with 10 character errors. Compute WPM and character-based accuracy.

Task 4

Create a short original passage of 20 to 30 words suitable for a typing practice page, then state the counting convention you would print with it.
