Printable Guidelines: Adjustable Ruled Writing Line Spacing

Original tasks 1, 2, 3 / blank responses

Task 1

A planned page has a writing height of 100 mm, top margin 10 mm, bottom margin 10 mm, and a hypothetical gap of 8 mm. How many full lines fit?

Task 2

A writer measures a baseline-to-midline distance of 6 mm. The printed gap is 10 mm. Is the gap likely too wide, too narrow, or suitable? Explain using the x-height convention.

Task 3

A planned wider-spacing page has a writing height of 180 mm, top margin 15 mm, bottom margin 15 mm, and a hypothetical gap of 12 mm. How many full lines fit, and how much height is unused?

Printable Guidelines: Adjustable Ruled Writing Line Spacing

Original tasks 4 / blank responses

Task 4

A user wants to compare page one and page two. Page one has a hypothetical gap of 8 mm and page two has 12 mm. The measured writing height is 120 mm with 10 mm top and bottom margins. How many lines fit on each page?
