Alto Clef Staff Paper: Blank Staves with Clef at Every System

Worked example / complete source key

A sheet has five-line systems with an alto clef at each start. On one system the clef center sits on the third line from the bottom. A note is written on the fourth line from the bottom. Name the note and state the check.

Answer: The third line is middle C. The fourth line is one line above, which is E. Check: confirm the clef center is on the third line, then count one line upward from middle C to E.

Reason: Alto clef fixes middle C on the middle line. Moving one line upward follows the natural staff step from C to E.

Check: Verify clef alignment on the middle line, then count line-space steps from middle C to the note.
