Bass Clef Staff Paper: Low-Register Notation Practice

Worked example / complete source key

On a five-line bass clef staff, name the pitch on the fourth line from the bottom and the space directly below it.

Answer: The lines from bottom to top are G, B, D, F, A. The fourth line from the bottom is F below middle C. The space directly below that line is E.

Reason: The bass clef fixes the second line from the top as F. Counting from the bottom confirms the fourth line is F. The space below a line is one step lower, so the space below F is E.
