Original tasks 1, 2, 3 / blank responses

Task 1

A planned band is 12 mm between main lines with three evenly spaced fine sub-lines. State the sub-space height and the number of sub-spaces.

Task 2

Describe where a lowercase letter body, an ascender, and a descender would sit on a Seyes band, using sub-spaces rather than fixed millimetres.

Task 3

Write a short model sentence for copy practice and list two rubric criteria you would use to review the copy.
