Alphabet Letterform Tracing and Stroke-Order Practice

Original worked example / unchanged complete key

Prompt: Practice the uppercase letter E using the numbered stroke order. Trace it once, then write it four times in the blank row. Use a baseline and a midline. Score the last letter with the four-point rubric.

Answer: Stroke 1: vertical line down from the top. Stroke 2: top horizontal line left to right. Stroke 3: middle horizontal line left to right. Stroke 4: bottom horizontal line left to right. Trace once slowly, then write four E letters in the blank row, keeping the same order. For the last letter, score 4 out of 4 if the start point is correct, direction follows the numbers, height is consistent between baseline and cap line, and the letter is readable. If any point is missed, score 3 or lower and trace once more.
