Read-and-Draw Kindergarten Sheets: Sentence-to-Picture Practice

Worked example / complete source key

Sentence: 'The cat sits on a mat.' A child draws a simple cat shape with ears and whiskers, a rectangle mat, and the cat's body resting on the mat with no legs showing. The child points to the cat and says, 'It is sitting.' Does this count as a match?

Answer: Yes. The drawing shows the key noun (cat) and the key state (sitting on a mat). The child's explanation confirms the match. The rubric notes the key noun present, the key state present, and a clear link to the sentence. Extra details such as whiskers are welcome but not required.
