Drawing Notes Worksheet: Trace, Copy, and Label Note Values

Original worked example / unchanged complete key

Prompt: A learner traces a light grey model in the second space from the bottom. The model has a filled head, a right-side stem, and one flag. The learner traces it and writes a label. What note value is it, and what should the label say?

Answer: It is an eighth note. The label should say eighth note. The filled head and stem match a quarter note, but the single flag makes it an eighth note.
