Two separate word parts / one valid illustrated key

rain	coat
	

Each picture represents its own part, not the complete compound. These are sample pictures; a different recognizable picture is valid when explained.

Your explanation / measured check:

Compound Word Split-and-Draw Plates: A Drawing Worksheet Plan

Original worked example / unchanged complete key

Prompt: Split the compound word 'raincoat' into two parts, write each part in a split box using the baseline-to-midline convention, and draw one picture for each part in its picture box.

Answer: Split boxes: rain | coat. Picture boxes: a cloud with falling lines for rain, and a simple coat outline with sleeves for coat. A valid alternative is a raindrop for rain and a buttoned jacket shape for coat, provided the learner explains each link.
