Boxed-Cell Writing Grid: Letter Placement Practice

Original tasks 1, 2 / independent work

Task 1

A cell is 24 mm tall. State the midline height and name the zone for the letters b, o, and g.

Task 2

A word uses 5 letters and one empty cell between two words. How many cells are used in total?

Boxed-Cell Writing Grid: Letter Placement Practice

Original tasks 3, 4 / independent work

Task 3

A trace row uses 18 mm cells and the blank row uses 22 mm cells. Is this a fair placement comparison? Explain.

Task 4

In a 16 mm cell, an x-height letter reaches 10 mm above the baseline. Does it meet the convention? State the midline and the fix.
