Handwriting Lines Above a Blank Picture Frame: A Caption-and-Draw Page

Worked example / complete source key

A page has a 15 mm top margin, four ruled lines spaced 9 mm apart, a 6 mm gap, and a frame 90 mm tall. The paper is 297 mm tall. What is the total height used, and how much space remains at the bottom?

Answer: The ruled block is 3 gaps of 9 mm, so 27 mm. Add the top margin 15 mm, the gap 6 mm, and the frame 90 mm: 15 + 27 + 6 + 90 = 138 mm. Remaining space is 297 - 138 = 159 mm. These values are hypothetical examples; measure your own paper.
