Japanese Character Practice Grid: Stroke-Order Boxes and Repeat Rows

Original tasks 1, 2 / independent work

Task 1

A hypothetical row uses a 30 mm margin, a 40 mm stroke-order box, and four repeat cells of 20 mm. The usable width is 160 mm. Does the row fit?

Task 2

A hypothetical sheet has eight row groups of 28 mm each and a 20 mm header. The usable height is 250 mm. Does the sheet fit vertically?

Japanese Character Practice Grid: Stroke-Order Boxes and Repeat Rows

Original tasks 3, 4 / independent work

Task 3

A learner writes a kanji with a slightly different slant in the repeat cells but the same stroke order and legible form. Using the convention in this guide, should the practice be accepted?

Task 4

A hypothetical margin is 30 mm wide. A learner wants to write two kana readings and a four-word note. Is this a suitable use of the margin column?
