Genko Yoshi Cell Placement and Line-Start Rules: A Practical Guide

Original tasks 1, 2 / independent work

Task 1

A line holds 6 cells. A paragraph has 14 characters. The 13th character is a period. Does the period start a line, and what is the adjusted cell count?

Task 2

A grid line holds 10 cells. A paragraph has 25 characters. The 21st character is a small kana. Identify the line start and adjust.

Genko Yoshi Cell Placement and Line-Start Rules: A Practical Guide

Original tasks 3, 4 / independent work

Task 3

Describe where an opening bracket and a closing bracket sit in their cells under this guide's convention, and state one valid alternative.

Task 4

A line holds 7 cells. A paragraph has 16 characters. The 15th character is a comma. Show the adjustment and verify the total.
