First-Grade Lined Writing Paper: Layout Guide and Practice

Original tasks 1, 2 / independent work

Task 1

A printable area is 180 mm tall. The header uses 25 mm and the picture box uses 35 mm. Each writing line block uses 12 mm. How many full writing line blocks fit, and how many millimeters remain?

Task 2

A line height is 14 mm. Where should the dashed midline be placed if it is at half the line height above the baseline?

First-Grade Lined Writing Paper: Layout Guide and Practice

Original tasks 3, 4 / independent work

Task 3

A child writes the word man on a first-grade line. Using the convention, describe where m, a, and n should sit, and state one check you would use.

Task 4

A sheet has 5 writing lines. Each line is 150 mm wide. A child writes 12 letters on each line. What is the average horizontal space per letter in millimeters, and what check confirms the total?
