Graph Linear Equations in Standard Form Using Intercepts

Original tasks 1, 2 / independent work

Task 1

Find the intercepts of 3x + 4y = 12 and describe the line.

Task 2

Find the intercepts of x - 2y = 4 and describe the line.

Graph Linear Equations in Standard Form Using Intercepts

Original tasks 3, 4 / independent work

Task 3

Find the intercepts of 5x + 2y = 10 and describe the line.

Task 4

Find the intercepts of 4x - 3y = 0 and describe the line.
