Draw a Haunted House: Crooked Roof, Boarded Windows, Porch and Silhouette

Original worked example / unchanged complete key

Prompt: Draw a haunted house on a 20 cm by 15 cm sheet using a body 10 cm wide and 7 cm tall, a peak 3 cm above the body, two windows 2 cm by 2.5 cm, and a porch deck 1 cm below the windows.

Answer: The body occupies the lower center. The peak sits 3 cm above the body top, offset 2 cm from center. Two windows are placed between baseline and midline, each with two angled boards. The porch deck is 1 cm below the windows with three vertical posts. The roof and walls are darkened, windows left lighter, and two bare branches added behind.
